

# Better Woodlands for Wales

## Approved Management Planners

# Better Woodlands for Wales

## List of Approved Management Planners

This guide provides a list of Forestry Commission Wales approved and active management planners. They are responsible for advising you about the requirements and benefits of the Better Woodlands for Wales (BWW) scheme and how they relate to your woodland objectives. They will also submit a BWW application on your behalf using our Grant and Licences Online Service (GLOS). The preparation of a management plan requires specialist skills and experience of forestry and woodland management. All management planners abide by our Code of Practice, a copy of which can be found on our website or from BWW Technical Services. We provide a grant that will contribute towards the cost of employing a management planner and also towards the costs that may be incurred if the services of a specialist assessor are required. Specialist assessors are experts capable of carrying out the type of specialist assessment work required, for example, a woodland ecology assessment.

We recommend that you contact several management planners who work in your location and find out if:

- a) You are happy with the service they can provide and
- b) How much they will charge to produce your BWW application.

In most circumstances the cost for producing an application is covered by grant amount.

This guide is sorted alphabetically first by the company name (if appropriate) and then by the Management Planner's name. The list shows the area where they work and whether they work in English or Welsh language. If you have any difficulty finding a planner, please let us know and we will allocate one for you.
