

KIVETON

COMMUNITY WOODLAND

Kiveton is a site of remarkable diversity. The flat area close to the Colliery Road entrance, which includes the amphitheatre, offers a scenic space for community events and informal play. The adjoining fishing ponds are a magnet for wildlife as well as fishermen. As you cross the bridge and head up the zig zag path to the view point you enter a wilder area where nature thrives. The paths on this part of the site take in both mature and new woodland, natural grassland and diverse wetland.

LOCATION

From the M1 take junction 31 and turn onto the A57 (Sheffield). At the first roundabout turn left (signposted Wales). Follow the road up until the left turn signposted Kiveton Park. Follow road along to the railway station at Kiveton Bridge. Continue along to a crossroad (just after the Saxon Pub). Turn right onto Hard Lane, the car park is on your right just after the houses.
