

Newborough Forest and Warren – consultation planning

3 – 5pm, 8th March 2006, PJI

MINUTES

Summary of meeting

This new group (of about 8 people) is tasked with planning the next phase of the consultation on the future of Newborough forest and warren. Members of the group are determined to build on what has been learnt so far, and to engage as widely as possible to give everyone a say in what should happen. The group also hopes to build interest and understanding of the opportunity and inevitability of change in the area, amongst people who live, work or visit here.

The group will put draft consultation proposals to the liaison partnership on the 3rd April and will meet again on the 24th April to refine the plans.
