2007	1,211	653	1,864	37	349	387
2008	1,100	682	1,782	40	339	379

### Notes:

1. FC = Forestry Commission; Non-FC = All other woodland, including other publicly owned woodland.
2. One green tonne is equivalent to approximately 0.98 m<sup>3</sup> underbark softwood or 0.88 m<sup>3</sup> underbark hardwood, and to approximately 1.22 m<sup>3</sup> overbark standing softwood or 1.11 m<sup>3</sup> overbark standing hardwood.
3. The figures for softwood (conifers) production are based on FC administrative records and on trends reported by the largest harvesting companies.
4. The figures shown for hardwood (broadleaved) production are estimates, based on reported deliveries to wood processing industries and FC administrative records.
5. Country breakdowns for non-FC are estimated from UK/GB totals using available data.

2006	364	21	384	0	0	0
2007	363	29	393	0	0	0
2008	398	23	421	0	0	0

### Notes:

1. FS = Forest Service; Non-FS = All other woodland, including other publicly owned woodland.
2. One green tonne is equivalent to approximately 0.98 m<sup>3</sup> underbark softwood or 0.88 m<sup>3</sup> underbark hardwood, and to approximately 1.22 m<sup>3</sup> overbark standing softwood or 1.11 m<sup>3</sup> overbark standing hardwood.
3. The figures for softwood (conifers) production are based on FS administrative records from 1994 and on trends reported by the largest harvesting companies from 2003. Figures from earlier years are estimated.
4. Hardwood (broadleaved) production in Northern Ireland is estimated to be negligible.
