Subject: leases and cutting rights

If this act of stupidity go's ahead in any form let alone the rumored 25% it will spell the end of the forestry commission in scotland, all the good work over many years undone by greedy polititions using "global warming" as an excuse to raise revenue for their own ends .Anyone who helps this act of madness go through should hang their heads in shame, a parcel of rogues is the best that discribes them

Regards
c allen
