

Certified woodland area in England, 2001-2011

	thousands of hectares		
	FC	Non-FC	Total
Dec 2001	208	73	280
Sep 2002	206	80	286
Mar 2004	205	82	287
Mar 2005	205	127	333
Mar 2006	204	137	341
Mar 2007	202	149	351
Mar 2008	202	131	332
Mar 2009	201	138	339
Mar 2010	199	144	343
Mar 2011 (original)	195	122	317
Mar 2011 (revised)	214	122	335

Source: Forest Stewardship Council, Forestry Commission

Note:

1. All certified woodland is certified under the Forest Stewardship Council (FSC) scheme. Some of these woodlands are also certified under the Programme for the Endorsement of Forest Certification (PEFC) scheme.
2. The estimates are based on UK data published by FSC, supplemented by data from individual certificates and other sources. Where possible, figures are for the woodland area certified, rather than the land area certified.
3. FC = Forestry Commission; Non-FC = All other woodland, including some other publicly owned woodland.
4. The Forestry Commission areas are the latest woodland areas, rather than the areas shown on certificates. As the Forestry Commission woodland areas for 2011 are based on the National Forest Inventory together with GIS data for Forestry Commission land, the figures for March 2011 are higher than had been estimated using previous data sources (the Forestry Commission's sub-compartment database). Figures for March 2011 are shown above for both data sources. To compare March 2011 figures with previous years, the "original" figures should be used to enable comparison on a consistent basis.
