However, we may ask you for these later. You may also be asked to clarify your answers or provide more details.

Your organisation will only be evaluated based on the information in your tender. Note that if you do not mention any previous experience of working with us in your reply we cannot take this into account. Please do not send any information that is general company or promotional literature, as this will not form part of our evaluation. Any additional documents you provide must refer to a question within the ITT and be easily identifiable as the answer.

All costs associated with taking part in this process remain your responsibility. We will not return any part of your completed tender to you.

4.4 Right to cancel or vary the process

We reserve the right to cancel or withdraw from the selection and evaluation process at any stage.

You must treat all information we supply to you in confidence and do not disclose it to third parties, unless you need to obtain sureties or quotations for submitting your response.

The Government has set out the need for greater transparency across its operations to enable the public to hold public bodies and politicians to account. This includes

commitments about public expenditure, intended to help achieve better value for money.

As part of the transparency agenda, the Government has made the following commitments for procurement and contracting, note procurement is devolved to the Welsh and Scottish Administrations, so some of these requirements are not UK-wide at this time.

- All new central government tender documents for contracts over £10,000 are to be published on a single website from September 2010, and this information will be made available to the public free (except for contracts concluded in Scotland or Wales exclusively).
- New items of central government spending over £25,000 to be published online from November 2010.
- All new central government contracts with a value greater than £10,000 are to be published in full on a single website from January 2011, and this information will be made available to the public free (except for contracts concluded in Scotland or Wales exclusively).

Bidders and those organisations looking to bid for public sector contracts should be aware that if they are awarded a new government contract, as a public sector organisation, we will publish that contract. In some circumstances, some information will be made unreadable before they are published so we comply with existing law and for protecting national security.

As part of the tendering process, when submitting your bids, you should identify which pieces of information you regard as being sensitive and would not want published. We will then assess this information (along with the rest of the contract) against the exemptions set out by the Freedom of Information Act when considering which contractual information should or should not be published.

4.6 Consortia arrangements

If you are bidding as a consortium, you must provide the following information:

- full details of the consortium; and
- the information sought in this ITT for each of the consortium's constituent members as part of a single complete response.

You should provide details of the actual or proposed percentage shareholding of the constituent members within the consortium in a separate Annex. If as a consortium you are not proposing to form a corporate entity, please provide full details of alternative proposed arrangements in the Annex. However, please note we reserve the right to require a successful consortium to form a single legal entity under Regulation 28 of the Public Contracts Regulations 2006.

We recognise that arrangements about consortia may (within limits) be subject to future change. You should therefore respond in the light of current arrangements. We remind you that you must tell us about any future proposed change to your consortia so we can make a further assessment by applying the selection criteria to the new information you provide.

4.7 Sub-contractors

Where you propose to use sub-contractors, please give all information we ask for about the prime contractor. Where sub-contractors will play a significant role in the delivery of the services or products under any ensuing contract, please indicate in a separate annex (by inserting the relevant company or organisation name) the composition of the supply chain, showing which member of the supply chain will be responsible for the elements of the requirement.

We recognise that arrangements about sub-contracting may change. However, you need to remember that where sub-contractors are to play a significant role, any changes to those sub-contracting arrangements may constitute a material change and therefore may affect your ability to proceed with the procurement process or to provide the goods and, or, services.

4.8 Tender validity

All details of the tender, including prices and rates, must be valid for 90 days from receipt of tender.

4.9 Language

The completed tender and all accompanying documents must be in English.

4.13 Disclaimer

While the information in this ITT and supporting documents has been prepared in good faith by us, it may not be comprehensive nor has it been independently verified.

Neither the FC, nor their advisors, nor their respective directors, officers, members, partners, employees, other staff or agents:

- makes any representation or warranty (express or implied) as to the accuracy, reasonableness or completeness of this ITT; or
