

**The London Tree and Woodland Grant Scheme
The Forestry Commission's Community Grant Scheme
Public Register**

December 2008 Round

Status of application	Project applicants	Project name and description	Name of Local Authority area	Property name and area of work (hectares)	Project Postcode
Approved	London Borough of Bexley	Bexley Woodlands: This project will undertake both planting and coppicing in Foots Cray Meadows- The Alders and North Cray Woodlands.	Bexley	Foots Cray Meadows- 14 hectares	TQ 478 717
Approved	British Airways PLC	Harmondsworth Moor: The aim of the project is to plant a 2 ha. woodland of mixed native hardwoods and associated understorey. The new woodland will add to the parkland's living classroom and provide a currently missing habitat to the southern part of the Colne Valley Park. This will enhance the BA "Community Learning Centre".	Hillingdon	Harmondsworth Moor – 2 hectares	UB7 0DE
Approved	Trees for Cities	Clapham Common: This project aims to work with the local community and replant 20 standard trees to replace some mature trees that have been lost in the park.	Lambeth	Clapham Common: 540 Sq metres	SW4 9DE
Approved	London Wildlife Trust	Denham Lock Boardwalk Restoration: This project aims to replace 50m of degraded raised boardwalk with FSC timber. The boardwalk path will benefit local visitors, tourists, anglers and birdwatchers as well as London Wildlife Trust staff and volunteers undertaking management works and ecological surveys.	Hillingdon	SSSI site: Denham Lock Wood Nature Reserve	UB9 4NA

Approved	PADI	Five Elms Infant School Garden: PADI will work with school pupils and staff to design and bring a garden to life, planting trees and shrubs.	Dagenham	Five Elms Infant School Garden	RM9 5TB
Approved	Better Bankside	Great Guildford Street- A stream in the forest: This is the first project under the Bankside Urban Forest Initiative, focussing on the link between the Thames Path and Southwark Street. Working with local residents the project will plant Lime and/or London Plane Trees within an existing green space which runs alongside Great Guildford Street.	City of London	Great Guildford Street.	SE1 0FD
Approved	London Borough of Havering	Green Flag Parks Improvements: this project will assist the Borough to apply for Green Flag status for Cottons Park and Harold Wood Park. Green Flag is a great catalyst for rejuvenating the parks. Landscape plans have been produced which include tree planting. The project will plant 40 trees in partnership with the Friends of Groups, the local schools and community members.	Havering	Cottons Park Harold Wood Park 5000 sq metres	RM7 9QE RM3 0NB
Approved	Groundwork East London	Hainault Hedgerows: The aim of the project is to regenerate an area of landscape in Hainault Business Park. This will involve planting a native hedgerow with standard trees to increase biodiversity and form a small green wildlife corridor, providing a more pleasant environment for local employees.	Redbridge	Hainault Business Park	IG6 3TU
Approved	Hillingdon Natural History Society	Harefield Place: North Wood Broadwalk: This project will replace temporary "portable" boardwalks with an PEFC timber secure structure. This will benefit local residents, ramblers, families and the society groups.	Hillingdon	Harefield Place Nature Reserve : 3.8 hectares	UB9 6JL

Approved	The Royal Borough of Kingston Upon Thames	Hogsmill Woodland Clearance. This nature reserve is currently overgrown with limited or no access for users. This project aims to clear the existing stock and allow better management of the area as a place to encourage walks and benefit local interest groups and community members.	Kingston Upon Thames	5,350 sq metres	KT3 5QW
Approved	The Friends of Finsbury Park	Hornsey Wood in Finsbury Park. The Friends of group are aiming to enhance the western edge of Finsbury Park, adjacent to the main railway line by planting tree and hedges. This will improve biodiversity, reduce the railway noise and screen the railway and backs of houses from the park and will increase the safer access for schools, Finsbury Park Art Club and general users.	Haringey	Finsbury Park 0.4 hectares	N4 2NQ
Approved	Friends of King Henry's Walk Garden	King Henry's Walk Woodland. This project aims to regenerate and improve the woodland to provide an environment in which the local community can experience and enjoy trees and wildlife. Diseased or dangerous trees will be removed and new trees and plants will be planted alongside a hedgerow with a variety of native species to provide shelter and a source of food for birds.	Islington	King Henry's Walk Woodland – 0.1 hectares	N1 4NX
Approved	Friends of Kneller Gardens	Kneller Gardens have been developed to involve the local community in the management of the gardens. This project will enhance the gardens through planting 10 new Oak trees as part of a larger project involving the local community. The Guides and Cubs will be present when the trees are planted and will be encouraged to “adopt a tree” to assist with their long term maintenance.	Richmond Upon Thames	Kneller Gardens: 5.04 hectares	TW2 6PH

Approved	London Borough of Hillingdon	Little Britain Lake Woods Management. This is a popular site with the “Friends of group” and anglers, birdwatchers and local residents. The groups, volunteers and Blue Sky Social Enterprise are managing the scrub around the lake to allow access but there is a need for specialist tree contractors to coppice some of the trees to allow more light to penetrate to the lake banks. Additional hedge planting will also take place.	Hillingdon	Little Britain woods 2 Hectares	UB8 2JR
Approved	Hackney Marshes User Group	Managing Wick Wood: This project will continue the community management of the woodland coppicing willow and hazel, continuing to open areas within the dense canopy to promote diversity and encourage ground flora, continuation of monitoring the biodiversity on site and produce and erect three public information signs at the entrances to the woodland.	Hackney	12 hectares	E9
Approved	PADI	Marks Gate Infant School Garden; PADI will work with school pupils and staff to design and bring a garden to life, planting trees and shrubs.	Barking and Dagenham	Marks Gate Infant School	RM6 5LL
Approved	London Borough of Bromley	Mottingham Wild Woods: The Friends of Mottingham Woods have began to collect rubbish from the woodland, cut back vegetation, plant trees and promote the use of the woodland. This project will support the community to hold education workshops within the woodland, engaging young people and families in art workshops and events. They also plan to transform a boundary wall into a beautiful mural.	Bromley	Mottingham Wild Woods: 28.7 hectares	SE9 4JS

Approved	Trees for Cities	Mount Pleasant Open Space :This project aims to work with the local community and replant 9 standard trees	Brent	Mount Pleasant Open Space	HA0 1TS
Approved	Noel Park Primary School	Hedgerow and tree planting project: The pupils will plant a hedge alongside the school boundary next to the woodland to enhance the biodiversity and environment around the school. The chosen species will be native, hawthorn and blackthorn, hazel, holly dog rose and field maple.	Haringey	Noel Park Primary School	N22 6LH
Approved	Groundwork London	Oldfield Primary Schools Fruit Orchard this project aims to create a fruit orchard which will enable young children to engage and learn about nature and food growing in a safe and supervised space. They plan to plant a range of fruit trees to attract a plethora of wildlife species.	Ealing	Oldfield Primary School	UB6 8PR
Approved	Royal Parks	Prince Charles Spinney Restoration: this project forms a wooded area within Richmond Park, it contains some magnificent veteran oaks as well as spring display of bluebells. This project aims to complement these features by creating a hazel coppice with oak standards.	Richmond Upon Thames	Richmond Park, Prince Charles Spinney – 1 hectare	TW10 5HS
Approved	Ruislip Woods Trust	Ruislip Woods NNR Bat Conservation and Education Project- The funding will support this biodiversity project through the purchase of bat boxes to create new roosting opportunities and to enhance the conservation of bats in the woods. The Friends of group plan to organise a series of community education events.	Hillingdon	Ruislip Woods – 305 hectares	HA4 7TY
Approved	Trees for Cities	St Raphael's Park: This project aims to work with the local community and plant 7 standard trees in St Raphael's Park.	Brent	St Raphael's Park	NW10 0RX

Approved	St Bernadette RC School	St Bernadette RC School Playground: The pupils on the school council requested more greenery in the playground. The school gardening club will plant and maintain fruit trees alongside the playground.	Lambeth	St Bernadette RC School	SW12 0AB
Approved	St Marks Church of England Primary School	St Mark's School: The school children will help to plant and maintain a Weeping Willow and Budligh tree in the school grounds.	Lambeth	St Marks Church of England Primary School	SE11 5SL
Approved	London Borough of Barking and Dagenham	Scrattons Farm Eco Park Habitat Improvements: This project aims to engage local people in a volunteering programme to improve the biodiversity and landscape quality of the site. This will be achieved through establishing new tree plantations through community planting.	Barking and Dagenham	Scrattons Farm Eco Park, 0.25 hectares	IG11 TQ 481 833
Approved	Sheringdale School	Sheringdale School Wildlife Garden: This project is part of wider school grounds improvements. The funding will be utilised to plant native woodland species to create a boarder for schools new wildlife garden.	Wandsworth	Sheringdale School	SW18 5TR
Approved	Trees for Cities	Thomas More Trees Project: This project will involve community members in regenerating this social housing estate, planting trees and plants in the community areas.	Barnet	Thomas More Estate	N2 0UL
Approved	The Salvation Army playgroup	Tree and bench for The Salvation Army Nursery playground. The playgroup would like to plant a large standard tree to provide immediate shade in the outdoor play space and a bench to go under the tree for the children, parents, volunteers and staff to enjoy.	Haringey	The Salvation Army playgroup	N22 6JA

Approved	Southwark Council	Trees for Gateway Estate: This project aims to plant up to 40 trees within the boundary of the estate to improve the visual amenity, ecological benefit and to encourage community participation and awareness.	Southwark	Gateway Estate	SE17 3HH
Approved	University of Westminster	University of Westminster Hedgerows for Habitat Improvement Scheme: This project proposes to establish 2 new mixed native species hedgerows with the inclusion of whips along the sports pitches and the newly created Thames path and Hartington Road. This will help to improve biodiversity and enhance the users experience.	Hounslow	University of Westminster Sport Ground- Riverside Fields – 400 Sq metres	W4 3UP
Approved	Newington Green Action Group	Wildlife in Newington Green: Working in partnership with the London Boroughs of Hackney and Islington, the aim of the project is to extend the range of the green corridors by planting native street trees in streets that link Newington Green to other green spaces and to erect bird, bat and insect boxes in the local area.	Islington and Hackney	Green Lanes Winston Road Lidfield Road Matthias Road	N16 9NB N16 9LU N16 9NA N16 8NN
