

# Summer Explorer

Discover summer  
as you walk

As you walk around the woods, which of these 12 amazing summer sights, sounds, scents and textures can you find?

- Listen for the sound of grasshoppers and crickets chirping in the tall grass

- Close your eyes and listen for the buzzing of bees and flies

- Look for the blackbirds  rustling in the fallen leaves as they look for worms

- Find a hydrangea plant that has hairy or furry leaves

- Feel the soft petals and smooth stems of daisies as you make a daisy chain. Who can make the longest one?

- Find tickly grasses and 'sticky' goose grass (also known as sticky weed or cleavers)

- Create your own summer scent  - collect fallen items, crush them and discover the hidden scents

- Find a flower scent you like see which insects visits it

- Follow an insect to see where it goes

- Look out for spit on grass stems, created by froghopper nymphs. Can you see the nymph inside?

- Spot 3 different types of butterfly

- Watch damselflies and dragonflies darting close to the pond
