

# Word Challenge

Try to put the 'leaf words' into the spaces to make a sentence.

Leaf Words

We breathe out \_\_\_\_\_ gas  
which the tree uses to help produce food.

The part of the tree  
where all the leaves  
grow is known as the  
\_\_\_\_\_.

Trees that have needle-  
shaped leaves are known as  
\_\_\_\_\_ trees.

Tree roots suck up \_\_\_\_\_ and  
\_\_\_\_\_ from the soil.

During the winter, \_\_\_\_\_ trees  
lose their \_\_\_\_\_.

Trees produce \_\_\_\_\_ gas  
which we breathe to stay alive.

Leaves capture \_\_\_\_\_ to provide  
the energy for photosynthesis.
