GRANT SCHEME
WGS

North East England Jigsaw Challenge Fund
Round 5: 2005

Scoring Form *will be used to assist the judges decision*

Complete only one scoring form per application.

Wood Name/Ref: _____

Creation of Larger Woods *(Tick those that apply)*

10 Increases the size of existing woods from under 3ha to over 3ha
(provided open space is included)

15 Increases the size of existing woods from under 20ha to over 20ha
(provided management plan exists and is being followed)

Area of New Woodland *(Tick one box only)*

0 <2ha

5 2.0-4.9ha

15 5.0-10ha

20 >10ha

Extends an Existing Woodland *(Tick all boxes that apply)*

20 Within 30m of Ancient semi-natural woodland

15 Within 30m of old planted woodland that has developed characteristics
of semi natural woodland

10 Within 30m of a Plantation on an Ancient Woodland Site with significant
remains of native wood vegetation where restoration to semi natural
woodland is a management objective

Links with Existing Woodland *(Tick all boxes that apply)*

20 Links with >3 existing woodlands

10 Links with 2 or 3 existing woodlands

Forestry Commission
England

North East England Jigsaw Challenge Fund / Round 5: 2005

Other Habitats *(Tick all boxes that apply)*

15 Adjacent to a semi-natural non woodland habitat that is to be retained
Describe the habitat:

5 Adjacent to hedge (to be retained) derived from a woodland

5 Alongside a watercourse and helping to separate it from intensive agricultural practices on adjacent land

Management of adjoining existing woodland *(Tick the one box that applies most generally)*

5 Existing WGS or other similar scheme

10 Commitment to bring into management
(WGS application at least at "firm proposal" stage of processing by FC)

Vegetation on proposed site *(Tick the one box that applies most generally)*

10 In the uplands – former woodland site with the remains of woodland flora

5 In the lowlands – improved agricultural land/degraded former improved agricultural land

5 Semi improved/natural vegetation of low conservation value (e.g. bracken)

Supports other biodiversity plans *(Tick one box that applies most generally)*

Give specific details in application

10 Directly supports projects linked to FC target HAPs or SAPs (details from Conservancies)

10 Directly supports upland ash woodland

10 Directly supports upland oak woodland

Naturalness of establishment methods *(Tick the one box that applies to most of the area)*

10 Natural regeneration

5 Planted trees of local seed provenance

0 Planted trees of non local seed provenance

Partnership/Community involvement *(Tick any boxes that apply)*

10 Directly supports a Partnership (e.g. local woodland initiative)

5 Active engagement of local community in design or future management

5 Appropriate recreation facilities proposed
