#### Notes:

The term "ex" means that there is not a complete correlation between the two codes and that only a part of the HS96/HS2002/HS2007 or SITC Rev.3 code is applicable.

For instance "ex 44.03.99" under product 1.2.NC.T means that only a part of HS96/HS2002 code 44.03.99 refers to tropical industrial roundwood. Many tropical timber products contain "ex" codes in the above list as the Harmonized System of customs classification explicitly recognizes less than 100 tropical timber species. Species not explicitly recognized as tropical in the HS are grouped in "others" categories with non-tropical, non-coniferous timbers that are likewise not explicitly recognized by the HS (e.g. 44.07.99). Estimates of tropical timber trade totals therefore require that these "others" categories be analyzed to ascertain how much of the total was sourced from tropical countries.

In HS96/HS2002/HS2007, 0 in the final (fourth or sixth) position means that all sub-headings are included: 44.08.30 includes 44.08.31 and 44.08.39.

In SITC Rev.3, if only 4 digits are shown, then all sub-headings at lower degrees of aggregation are included: 634.1 includes 634.11 and 634.12
