

Continuing Professional Development Course in Biomass

Some background...

Biomass is a key fuel in the fight to tackle climate change. Consequently, the government has committed to ambitious targets and developed powerful incentives, which has in turn has resulted in huge commercial opportunities.

In assist stakeholders access the opportunities arising from this boom industry, FEY has developed a Continuing Professional Development (CPD) course in biomass for heat and/or electricity generation.

What will I learn...

The course provides a comprehensive overview of the biomass energy sector and provides delegates with a sound understanding of the...

- Policy context driving the development of the biomass sector
- Characteristics of a variety of biomass fuels
- Processes required to convert biomass to a useable fuel
- Conversion technologies used to convert fuel to heat and/or electricity
- Regulatory requirements of biomass projects
- Scale of operation required to satisfy domestic through to industrial scale power generation
- Economics of biomass projects

Case studies and site visits...

The course is packed with case studies and site visits to ensure the knowledge gained in the classroom is reinforced by real-life projects.

Site visits include:

- Energy crop tour
- Heat only, biomass district heating network
- Power only, co-firing installation
- Combined heat and power, energy from waste district heating network

Who will attend...

The course is aimed at:

- Consultants
- Project developers
- Policy makers and influencers

Where and when...

This five day course will be delivered on 13th – 17th October, 2008 at: Green Sand Foundry, 99 Water Lane, Holbeck, Leeds, LS11 5QN.

How much will it cost...

£1150 + VAT per delegate, with a 20% deposit required on registration.

How do I register...

To register for the course, contact Claire Hoyles at:
E: claire.hoyles@fey.org.uk, T: 0113 237 8436

Supported by:

Yorkshire *Alive with Opportunity!*

Accredited by: **This course would normally be a qualifying activity for Royal Institution of Chartered Surveyors CPD**
