

Dear Colleague,

The COST E50 Workshop on *Wound reactions in trees and wood quality* is going to take place in Ljubljana, Slovenia from **April 11 – 12, 2008**.

This workshop is considered to bring up together scientists working in the field of wound response of trees and related wood quality.

Contributions should deal with recent developments and advances in understanding on structural and biochemical response of wood, bark and cambium to wounding and infection, biochemistry and regulation of defense reactions, and properties of discolored wood, wet wood and wound-wood.

Your half-page abstract of poster or talk should be submitted by e-mail to [primoz.oven@bf.uni-lj.si](mailto:primoz.oven@bf.uni-lj.si) by **November 30, 2007**, at the latest.

Further information about the workshop will soon be available at:  
[www.forestresearch.gov.uk/fr/INFD-6FMCB3](http://www.forestresearch.gov.uk/fr/INFD-6FMCB3)

Important deadlines:

November 30, 2007:	Deadline for Abstract Submission (1/2 page)
January 15, 2008:	Notification of Abstract Acceptance
<b>January 15, 2008:</b>	<b>Early registration</b>
March 30, 2008	Late registration

**Please pass this information on to your national delegate and circulate it to interested research groups in your country.**

We are looking forward to your contribution!

On behalf of the organizing committee

Primoz Oven
