Record ID 4010274
Title: **Silvicultural Challenges for the 21st Century.**
Author: Kerr, G.
Imprint: an electronic lecture organised by the Canadian Institute of Foresters (CIF) held on 3 July 2013, 2013
Main subject: SILVICULTURE
Subjects: FCRA SPEAKER; 2014-FR-CAT-11
Abstract: A lecture given by Gary Kerr as part of the CIF National Electronic lecture series. Open to all and CIF reported 630 people logged on. The CIF noted "There was an overwhelmingly positive response to your lecture, even before it started. With 630 registrants, your topic was clearly of relevance to many people. Silvicultural challenges are something all forest practitioners face, undoubtedly leading to such a high registration number". (HW)

Title: **Climate Ready Forestry Workshop in Aberfoyle, 8 October 2013.**
Other titles: Stories from Queen Elizabeth Forest Park (Scotland)
Author: Moffat, A.
Company: Forest Research; Forestry Commission Scotland; ClimateXChange
Imprint: 2013
Main subject: CLIMATE CHANGE
Subjects: RESEARCH; TREES; FORESTS; ADAPTATION; FCRA SPEAKER; 2014-FR-CAT-11
Abstract: Chaired seminar in Aberfoyle c. 50 participants from Forestry Sectors including research commissioners, analysts, forest managers, Scottish Government. This seminar focussed on the key climate change threats facing Scotland's forests, and explored how we can manage our forests to adapt to these threats. We heard experiences of managing forests for climate change from forest managers at Queen Elizabeth Forest Park. There was an opportunity to consider current barriers to change, and explore what could be done to enable the forest sector to adapt through discussion and Q&A sessions. This was the first site in 'Scotland's Climate Ready Forest Network' which provided an opportunity for the forest sector from across Scotland to share their experiences of adapting to climate change, to consider best practice, and identify key knowledge gaps.
