

## Knowledge Exchange records from 01/04/2013 – 31/03/2014

### CATEGORY 7 - Scientific conferences: presentations or posters given (38 records)

- Record ID 4010243  
**Title:** Horticultural Trades Association (HTA) UK Plant Biosecurity Conference 2013.  
Author: Webber, J.F.  
Company: Horticultural Trades Association  
Imprint: York, 2013  
Main subject: TREE HEALTH  
Subjects: CHALARA FRAXINEA; EMERALD ASH BORER; PITCH CANKER; FCRA SPEAKER; 2014-FR-CAT-10  
Abstract: Included a presentation by Joan Webber that focused on Chalara fraxinea and other emerging pests and diseases that could become widespread in the future. For example, emerald ash borer (which is already causing tree death in North America) and pitch canker (which infects conifers and is already found in Spain). Other speakers included Defra Minister Lord de Mauley. The audience comprised 150 delegates from the horticultural and nursery sectors, NGO's and policy makers. (HW)

**Title:** Tree Health Conference: where do we go from here?  
Other titles: Held at West Dean, near Chichester, West Sussex on 24 July 2013.  
Author: Webber, J.F.  
Company: Forestry Commission England; South Downs National Park Authority  
Imprint: 2013  
Main subject: TREE HEALTH  
Subjects: FCRA SPEAKER; 2014-FR-CAT-10  
Abstract: Joan spoke about Tree Diseases, as one of 6 speakers.  
Class: No electronic resource

**Title:** **Evidence Overview: Trees, greenspace and wellbeing conference.**  
Other titles: A one day Conference held at Girton College, University of Cambridge, CB3 0JG  
Author: O'Brien, L.  
Company: ICF East England Regional Group  
Imprint: 2013  
Main subject: SOCIAL FORESTRY  
Subjects: PUBLIC HEALTH; WELL-BEING; GREENSPACE; CASE STUDIES; FCRA SPEAKER; 2014-FR-CAT-10  
Abstract: Concerns about public health are at an all-time high. At the political level in England, government is seeking to develop a new approach that empowers individuals to make healthy choices and gives communities the tools to address their own, particular needs. New institutions such as Public Health England and local Health and Wellbeing Boards are responsible for driving forward changes. The potential of greenspace to play a significant part in contributing to healthy lifestyles is gaining increased recognition. This conference brings together professionals from the health and natural environment sectors to examine: the needs and opportunities; the evidence to support the case for an increased role for greenspace and, through a number of case studies, provide practical guidance on how to realise the potential. Speakers included:  
Rachel Stancliffe, Chair of the NHS Forest Steering Group and Director of the Centre for Sustainable Healthcare  
Iain Green, Environmental Health Officer, South Cambridgeshire District Council  
Dominic Higgins, Green Gym National Development Manager, The Conservation Volunteers  
Sharon Hosegood MICFor, Director, D F Clark Bionomique Ltd (Broomfield Hospital Woodlands, Mid-Essex Hospital Services, NHS Trust)  
Prof. Andy Jones and Dr Emma Coombes, Norwich Medical School  
Andrew Milward, Walking for Health Regional Scheme Development Officer, Ramblers  
Dr Liz O'Brien, Deputy Head of Social and Economic Research Group, Forest Research  
Rachel Penny, Senior Specialist, Health and Accessible Natural Environment, Natural England  
Richard Powell OBE, Chief Executive, Healthy Ambitions  
Class: No copy held

**Title:** **A concept for testing decision support tools in participatory processes applied to the ToSIA Tool.**  
Author: Tuomasjukka, D.  
Co-author: Lindner, M.; Edwards, D.  
Imprint: 2013  
Source: Challenges  
Reference: 34-55  
doi:10.3390/challe4010034  
Main subject: FOREST MANAGEMENT  
Subjects: TOOL FOR SUSTAINABILITY IMPACT ASSESSMENT; DECISION SUPPORT SYSTEM; DECISION DEFENCE; STAKEHOLDER INTERACTION; PARTICIPATORY PROCESS; SCIENCE-POLICY INTERFACE; FCRA AUTHOR; 2014-FR-CAT-7  
Abstract: ToSIA (Tool for Sustainability Impact Assessment) offers a transparent and consistent methodological framework to assess impacts of changes (technological, policy, management, etc.) in the forest-based sector. This tool is able to facilitate the decision making process within and between diverse groups of stakeholders (e.g., forest managers and policymakers) as it provides a neutral, transparent and data-driven platform for stakeholder interaction and communication. To test these capabilities of ToSIA, a practical approach to test if a decision support system is suitable for participatory processes was developed based on a set of evaluation criteria for participatory processes. ToSIA's performance was assessed and discussed in different categories against a selection of criteria for successful participatory processes: six criteria were fulfilled by ToSIA, in nine, ToSIA is potentially helpful, in two, criteria ToSIA has no influence, and for three criteria, no experiences exist until now. As a result, ToSIA's conceptual suitability as a participatory decision support system was confirmed for two interlinked roles: as a decision support system to assess alternative scenarios, and as a communication platform for stakeholder interaction.

**Title: Climate change adaptation at Queen Elizabeth Forest Park, 9 September 2013.**

Author: Beauchamp, K.  
Co-author: Moffat, A.  
Company: Forest Research; Forestry Commission Scotland  
Imprint: 2013  
Main subject: CLIMATE CHANGE  
Subjects: FCRA SPEAKERS; 2014-FR-CAT-7  
Abstract: Forest Research presented a case study on 'climate change adaptation at Queen Elizabeth Forest Park', in the Natural Environment session of this conference. FR and FCS collaborated on a forestry and climate change adaptation display stand. This conference was a forum to: raise awareness of the broad range of adaptation initiatives underway in Scotland and elsewhere; engage a wide range of stakeholders on adaptation policy developments and the draft Scottish Climate Change Adaptation Programme; network across sectors to develop new ideas, projects and partnerships, and inspire action. The Conference was aimed at policy-makers, practitioners and managers; 200 attended.
