

English Woodland Grant Scheme

Email Alert 5th October 2010

Woodland Creation Grant 2010: We're staying open!

This year's round closed on the 30th September. We will publish further details of the amount of new woodland applied for and grant value for each region in due course.

Whilst there was a healthy number of applications, there is still funding available for woodland creation so we are remaining open for applications. We will continue to accept woodland creation applications on a first come first served basis until the national funds are fully committed.

Sent on behalf of the Grants and Regulations National Team.
