Impact Assessment Summary
1. Name of policy, function or service.
Business Plan (including Strategic Statement) for the Public Forest Estate in East of England
2. Purpose and aims of the policy, function or service.
Resource Allocation for the period April 2010 to March 2013
3. Who will benefit mainly from this policy, function or service?
This plan provides for the sustainable management of the East Anglia area of the PFE within the East of England Region. Primarily this is an internal Forestry Commission document which aims to secure appropriate resources for the sustainable management of the Forest Estate across a wide range of delivery programmes.
4. Information and Data (evidence) used.
Technical forestry information (required for production forecast and work programme purposes). Results of localised consultation for Forest Design plans, recreation development and community engagement.
5. Summary of Impact.
Mainly neutral with some positives for gender and race.
6. Monitoring or Evaluation.
The document is primarily an internal financial document which bids for central resources. The agreed Business Plan is subject to formal quarterly monitoring and annual revision.
7. Further Information.
Mike Taylor, Forestry Commission , East of England, Santon Downham, IP17 0TJ
