

**THE FOREST REPRODUCTIVE MATERIAL (GREAT BRITAIN) REGULATIONS 2002**

**Application for Master Certificate for reproductive material derived from seed sources and stands**

All collections

1. **Botanical Name:** .....

2. **This application is for:** (*tick one box only*)      Seed units            Part of plants (e.g. cuttings)     

Registered stands only

3. **Basic material reference in National Register**.....

Source-identified seed sources only

4. **If the reproductive material is from a source-identified seed source please complete sections 4 and 5.**

4a. **Is the material?** (*tick one box only*)

Indigenous            Non-indigenous\*            Unknown     

\* Origin of basic material if known.....

4b. **Region of Provenance (for native species state seed zone)** .....

4c. **Location of collection** (*e.g. Harry 's Wood, near Kelso*) .....

4d. **Grid reference(s) (6 figure)**.....   
*(tick box if you do not want this to appear on Master Certificate)*

5. **Altitude or altitudinal range of collection site** from.....metres to .....metres. (*at minimum, must specify whether 0 - 300m, or 300m +*)

All collections

6. **Year in which seed ripened** .....

7. **Quantity of reproductive material** .....

*(for seed enter quantity of cleaned seed (in kg) not quantity of cones or berries)*

All collections

8. **Is this Master Certificate for a mixture of material that has been covered by previous Master Certificates?**

Yes            No            (*state previous Master Certificate numbers and % of lot covered by each certificate*)

.....

All collections

9. **Has there been subsequent vegetative propagation of material derived from seed?** Yes  No  *\*(complete 9a-c)*

9a. **Method of Propagation** .....      9b. **Number of cycles of propagation** .....

9c. **Master Certificate number of parent material** .....

All collections

10a. **Date of collection** from..... to.....

10b. **Other relevant information** .....

.....

**For closely related species (e.g. *Quercus* spp, *Larix* spp. or *Betula* spp.) please give an estimate of the percentage purity of the seed collected.**
