Title: **Forest Resilience – today's challenge to the sector.**
Author: Not known
Imprint: Forestry Journal September 2014
Description: Trade journal article
Main subject: FORESTRY COMMISSION
Subjects: SKILLS; EXPERTISE; KNOWLEDGE; PROFESSIONAL CHALLENGES; 2015-FR-CAT-5
Abstract: Article that notes the challenges to the sector and the importance that skills and knowledge, including that for Forest Research, can give to – and are required by – the forestry sector. Ian Gambles writes: "More than ever, woodland managers need the knowledge and skills to establish and manage woodland which not only thrives in current conditions but will also be resilient in the future. The Forestry Commission, including Forest Research, is on the case. (HW)

Title: **Members' report SCRR Newsletter 81, Winter 2014.**
Other titles: Recognising seedlings? There's an app for that.
Company: Forest Research
Imprint: 2014
Description: Members' report
Main subject: SEED SCIENCE
Subjects: RESEARCH; 2015-FR-CAT-5
Abstract: The latest Forestry Commission app is designed to aid the identification of the seedlings of woody species commonly found in UK woodlands. Behind the tech lies four years' worth of painstaking horticulture, botanical observation, and image capture.

Title: **The UK National Tree Seed Project: safeguarding juniper for future generations.**
Author: McCartan, S.A.
Imprint: Sanctuary: the Ministry of Defence Sustainability Magazine
43: 54-55, 2014
Description: Magazine article
Main subject: SEEDS
Subjects: JUNIPER; CONSERVATION; SEED BANKS; SEED ZONES; GENETIC DIVERSITY; FCRA AUTHOR; 2015-FR-CAT-5
Abstract: During 2013, juniper berries were collected from 24 populations throughout UK as part of the UKNTSP, which is being co-ordinated by KEW and funded by players of the Peoples Postcode Lottery. The broad aim of the UKNTSP is to collect seeds from tree species within each seed zone so as to conserve the genetic diversity of the species. This article discusses collection with a team of volunteers at Bulford, one of the largest lowland juniper populations.
