Notes:

1. Figures for England, Wales and Scotland are based on data obtained from the National Forest Inventory (NFI) and adjusted for new planting, but at present no adjustment is made for woodland recently converted to another land use.
2. Figures for Northern Ireland are obtained from the Northern Ireland Woodland Register.
3. Broadleaves include coppice and coppice with standards.
4. Table has been revised from version released in Forestry Statistics 2013 to correct error in non-FC conifer/ broadleaf breakdown.
