

If you enjoy Mountain Biking why not become a Volunteer Trail Builder at Kielder Forest

Join up with other like minded mountain bikers to build more single track in Kielder Forest. Kielder Trail Reavers meet on the first Sunday of every month and have recently completed a new section of hand built single track on the Lonesome Pine Trail. A second phase is about to be started, so if you want to help build some more Kielder Mountain Bike Trails here is your opportunity. No experience needed, it's good fun and you may even get the chance to have your say in the design of new trail features.
