

## Knowledge Exchange records from 01/04/2013 – 08/07/2013

### CATEGORY 10 - Conferences: presentations or posters given

Record ID 4010243  
**Title:** Horticultural Trades Association (HTA) UK Plant Biosecurity Conference 2013.  
Author: Webber, J.F.  
Company: Horticultural Trades Association  
Imprint: York, 2013  
Main subject: TREE HEALTH  
Subjects: CHALARA FRAXINEA; EMERALD ASH BORER; PITCH CANKER; FCRA SPEAKER; 2014-FR-CAT-10  
Abstract: Included a presentation by Joan Webber that focused on Chalara fraxinea and other emerging pests and diseases that could become widespread in the future. For example, emerald ash borer (which is already causing tree death in North America) and pitch canker (which infects conifers and is already found in Spain). Other speakers included Defra Minister Lord de Mauley. The audience comprised 150 delegates from the horticultural and nursery sectors, NGO's and policy makers. (HW)
