

Discovery Challenge

Find the smelliest plant in the forest.

Do you like its smell?

Can you find something that smells of lemon?

Make up a spell, or a magic potion to cure an illness.

Make a magic potion!

Collect different leaves, rub them together in your hands and smell them. Make up a name for your potion – forest fragrance or stinky squirrel?

How many different smells can you find?

Don't forget to share your smells with your friends!

Stir it up with some water in a cup with a twig - does it smell any different?
