

Learning
in your forest

Make-your-own mud logo

When you are visiting your forest, look for the logo.

If you can see this, your forest is one that is looked after by the Forestry Commission.

We make sure our forests are good for wildlife, and for people to visit, and that they provide timber.

Find a clear space on the ground, and make a picture of our logo out of sticks, leaves, mud, whatever else you can find.

Send a photo of your creation to:
learning.England@forestry.gsi.gov.uk

And we'll put the best ones on our website and Facebook page*

*please do not send any photos you are not happy for us to use on our website or social media pages
