

# Tourism Impacts on the Forestry Sector

## *Open Discussion*

Barry Gardiner/Mike Smith/David Edwards

NorToSIA Project Meeting Aviemore, Scotland

21 May 2010

## Questions

- What weight do we give to tourism versus forestry?
- How do we measure the contributions from each land-use?
- What indicators do we use?
- How does forestry get tourism pay for the forest resources it uses (e.g. road access, cycle paths, habitat creation)
- Can both land uses co-exist?
