TECHNICAL NOTE ON SURVEY METHODOLOGY

Sampling and Fieldwork

The Omnibus sample is designed to be representative of the adult population resident in Wales aged 16 and over. The unit of sampling is Lower Layer Super Output Area (LSOA) and 69 interviewing points throughout the Wales are selected with probability proportional to resident population, after stratification by Local Authority and Social Grade. A fresh sample of interviewing locations is selected each wave.

Within each sampling point, interlocking demographic quota controls of age and social class within sex are employed for the selection of respondents. Quotas are set to reflect the individual demographic profile of each selected point.

A fresh sample of interviewing locations and individuals are selected for each survey and no more than one person per household is interviewed.

Interviews are conducted face to face in the homes of respondents utilising CAPI (Computer Aided Personal Interviewing) technology. Beaufort's experienced fieldworkers are used with postal and telephone back-checking in accordance with ISO 20252.

The majority of the fieldwork for the March 2013 survey took place between 1st and 12th March 2013, with a small number of interviews conducted after this. A total of 1,012 interviews were completed and analysed.

Tabulations

The data has been weighted by age group within gender within Local Authority grouping to give each cell (42) its correct incidence within the Wales total derived from the results of the 2001 Census.

Tables are presented in the form of numbers and integer percentages with the unweighted and weighted sample base shown at the top of each column. Where the base is anything other than the total sample this is indicated underneath the table heading and follows logically from the question sequence and routing.

Arithmetic rounding to whole numbers means that columns of percentages do not necessarily sum to exactly 100%. Where more than one answer can be given to a question the sum of percentages may exceed 100%. 0 denotes a weighted sample of less than 0.5 and 0% denotes a percentage of less than 0.5%. Where column bases are less than about 50, percentages need to be interpreted with care.

A standard analysis of questions asked is provided as an integral part of the service involving demographic information collected as a matter of course towards the end of the interview. This breaks response down by classification variables (breakdowns) as shown overleaf.

CLASSIFICATION 1:

Area (groups of unitary authorities, 5 cols):

North Wales : Wrexham, Flintshire, Denbighshire, Conwy, Anglesey, Gwynedd

Mid/West Wales : Powys, Ceredigion, Carmarthenshire, Pembrokeshire

West South Wales : Swansea, Neath & Port Talbot, Bridgend

Valleys : Rhondda Cynon Taff, Merthyr, Caerphilly, Blaenau Gwent

Cardiff & S.E. Wales : Cardiff, Vale of Glamorgan, Torfaen, Monmouthshire, Newport

Gender (2 cols)

Age of respondent (6 cols)

Combined age group (3 cols)

Combined social class (2 cols)

Number of people in household (2 cols)

With child in house (2 cols)

CLASSIFICATION 2:

Welsh speaker (2 cols)

Household tenure (2 cols)

Employment status (2 cols)

Marital status (3 cols)

Ethnicity (2 cols)

Long-term disability (2 cols)

Religion (3 cols)

CLASSIFICATION 3:

Urban / Rural indicator (5 cols)

WIMD Rank (6 cols)

QUESTIONS ASKED

B01301- 1 WALES OMNIBUS SURVEY MARCH 2013

FORESTRY COMMISSION – FINAL QUESTIONNAIRE

ASK ALL

SHOWCARD A

Q1a From this list, please tell me which of the following *benefits* you think that woodlands near you provide for the local community?

CODE ALL MENTIONED

They support the local economy

They help attract visitors to the area

They provide wood as a renewable fuel

They are accessible to all in the community

They provide places for wildlife to live

They provide places for recreation (such as walking, cycling, horse-riding)

They provide places for relaxation and stress relief

They improve the landscape

They create pleasant settings for developments around the community

They give people in the community the opportunity to work together

They help reduce air and noise pollution

They remove carbon dioxide from the atmosphere, slowing climate change

They can be used by local schools and other educational groups

They are just a benefit knowing they are there

Other (please specify)

None of the above

DK

R

SHOWCARD B

Q1b From this list, please tell me which of the following woodland-related issues **disadvantages** your local community?

CODE ALL MENTIONED

Woodlands don't provide local jobs – contractors from elsewhere are used

It's really difficult to get firewood from our local woodlands

The woodlands near us can't be accessed

The woodlands near us aren't good for wildlife

The woodlands near us aren't nice places to visit

The woodlands make our landscape worse

The woodlands get in the way of developments around the community

We can't control what happens in our local woodlands

Managing woodlands pollutes the air/water/soil

Woodland operations and visitors create noise pollution

Woodland operations create carbon dioxide making climate change worse

Woodlands near us provide a place for criminal activity

Timber lorries / visitors to woodlands make the roads busy

Timber lorries make me feel unsafe walking/driving on the roads

Other (please specify)

None of the above

DK

R

SHOWCARD C

Q2a Thinking about the nearest urban area (town or city), what **benefits** do you think street trees in this urban area provide for the area?

CODE ALL MENTIONED

They make the area look more attractive

They help people to feel more relaxed and calm

They provide health benefits

They provide places for birds and wildlife to live

They help reduce air and noise pollution

They remove carbon dioxide from the atmosphere, slowing climate change

They are just a benefit knowing they are there

They help to improve road safety

Their shade helps to cool the area during summer

They increase property values and inward investment into the community

They help to soak up water in rainy weather

They offer a connection with the seasons and nature (and act as natural classrooms)

They create pleasant places to meet and mix with people

They produce useful by-products

They enhance the appeal and performance of shopping areas

Other (please specify)

None of the above

DK

R

SHOWCARD D

Q2b Thinking about the nearest urban area (town or city), what **disadvantages** do you think street trees in this urban area cause to the area?

CODE ALL MENTIONED

The trees in the urban areas near us aren't good for wildlife

The trees make the urban landscape worse

The trees get in the way of developments in or around the urban area

We can't control what happens to the street trees

Carrying out work to the trees causes disruption and mess

Street trees in urban areas near us provide opportunities for criminal activity and vandalism

Street trees reduce light to nearby houses and buildings

Falling leaves and branches make a mess and are a health and safety hazard

Street trees damage buildings and cause subsidence

Trees cause interference to TV reception and effectiveness of solar panels

Trees hide views

Trees harbour pests

Other (please specify)

None of the above

DK

R

Q3a In the last few years, have you visited forests or woodlands for walks, picnics or other recreation?

Yes → **GO TO Q3c**

No }
DK } **GO TO Q3b**

R → **GO TO Q4a**

SHOWCARD E

Q3b Which of the following, if any, are the main reasons for you **not** visiting woodland / forests more often or at all?

CODE ALL MENTIONED

Not interested in visiting more often

Don't have a car

Lack of suitable public transport

Other personal mobility reasons (difficulty in walking, unwell, etc.)

Woods are too far away

Lack of facilities (play areas, picnic areas, etc.)

Lack of information about woods to visit

Prefer other areas of countryside

Concerns that woods are not safe

Woodlands are badly maintained

Cost of visiting

Lack of confidence

I'm too busy/ not enough time

Other (please specify)

None of the above

DK

R

NOW GO TO Q4a

ASK Q3c – Q3g IF 'Yes' AT Q3a

Q3c Did you visit woodlands in the countryside or woodlands in and around towns?

Woodlands in the countryside

Woodlands in and around towns

Both

DK

R

SHOWCARD F

Q3d Thinking of the woodland/ forest you have visited most often, please use the card to tell me to what extent you agree with the following two statements.

INVERT BETWEEN RESPONDENTS

Strongly disagree

Disagree

Neither agree nor disagree

Agree

Strongly agree

DK

R

- I would visit again.
- I would recommend it as a place to visit to a friend or a relative

SHOWCARD G

Q3e Do you know who managed the woodland you visited most often?
SINGLE CODE ONLY

Forestry Commission
Woodland Trust
National Trust
Other (please specify)
None of the above

DK
R

SHOWCARD H

Q3f How frequently did you visit forests and woodlands last summer, i.e. between April and September 2012?

Several times per week
Several times per month
About once a month
Less often

Never

DK
R

SHOWCARD H AGAIN

Q3g And how frequently did you visit forests and woodlands this winter i.e. since October 2012?

Several times per week
Several times per month
About once a month
Less often

Never

DK
R

SHOWCARD I

Q4a Which of the following are important to you when choosing to visit a woodland?

CODE ALL MENTIONED

It is in close/easy reach

Knowing that visitors are welcome there

Attractive scenery

Wildlife

Peace and quiet

A good place to unwind/ de-stress

Good for exercise

Safe environment

No entrance charge

Clear signage - both welcoming & directional

Clear and accessible tracks and paths

A variety of activities

Dogs are welcome

Knowing you can access gates and stiles with your group (including pushchairs, dogs, wheelchairs or if you have a disability)

None of the above

DK

R

ASK ALL

Q4b Is there a forest or woodland that you can get to easily without using a car or other transport?

Yes

No

DK

R

IF Q4c YES AT Q4b

SHOWCARD J

Q4c How would you rate that forest or woodland in terms of how safe and welcoming it feels?

Excellent

Very good

Good

Fair

Poor

Very poor

DK / not sure

R

Q5a Have you ever been consulted about plans for creating, managing or using woodlands in your area?

Yes

No

DK

R

Q5b Would you like to be consulted in future about plans for creating, managing or using woodlands in your area?

Yes

No

DK

R

ASK IF YES AT Q5a

Q5c Do you feel that you have influenced decisions about creating, managing or using woodlands in your area?

Yes

No

DK

R

ASK IF YES AT Q5b

Q5d Do you feel that you would be able to influence decisions about creating, managing or using woodlands in your area?

Yes

No

DK

R

SHOWCARD K

Q6 Have you and/or anyone in your family attended any of the following organised learning activities or events to do with woodlands in the last 12 months?

CODE ALL MENTIONED

School trip

Guided walk or talk

Organised course or training event (such as dry stone walling, fencing, making bird boxes, woodland management)

An organised tree planting event

Other organised event (please specify)

None of the above

DK

R

Q7a Have you been involved in voluntary work in connection with woodlands in the last 12 months (e.g. physical work in a wood, administration, fund raising, running a group)?

Yes

No

DK

R

Q7b Are you a member of any community groups that are involved in the conservation and/or management of local woodlands?

Yes → **GO TO Q7c**

No }
DK } **GO TO Q8a**
R }

Q7c What is the name of your group?

RECORD VERBATIM

ASK ALL

SHOWCARD L

Q8a Have you purchased any of the following products made of **wood** in the last 12 months?

- Furniture
- Flooring
- Kitchen and bathroom cabinets/worktops
- Doors
- Decking/ Fencing
- Garden furniture / tools
- Other timber for DIY projects
- Toys
- Crafts (bowls, spoons etc)
- Other (please specify)

None of the above

DK
R

SHOW PICTURE CARD M

Q8b Have you ever seen either of these logos on wood products?

FSC - Yes
 No

 DK
 R

PEFC - Yes
 No

 DK
 R

SHOWCARD N

Q9 I'm now going to read out a list of statements that other people have said about tree pests and diseases (e.g. insects, fungi and plants), and I would like you to tell me to what extent you agree with each one.

INVERT SCALE BETWEEN RESPONDENTS

Strongly disagree
Disagree
Neither agree or disagree
Agree
Strongly agree

DK
R

- Everyone should take action when visiting woodlands to help prevent the spread of damaging tree pests and diseases (e.g. by washing shoes/ boots, bikes etc before and after their visit and by brushing soil & plant material from clothes)
- I would be willing to look out for and report sightings of pests and diseases on trees, if appropriate information and advice was available to me
- There is very little that anyone can do to prevent the spread of damaging tree pests and diseases
- Action should be taken by authorities and woodland managers to protect trees from damaging pests and diseases
- I understand what is meant by biosecurity

Q10 What is your religion? – **PUT IN CLASSIFICATION SECTION**

None
Christian (including Church in Wales, Catholic, Protestant and all other Christian denominations)
Buddhist
Hindu
Muslim
Jewish
Sikh
Other (please specify)

DK
R
