

Friday Street Forest access modifications

Have your say!

Join our online discussion on proposed changes to the entrance of the Bridleway, off Friday Street near Rendlesham.

The bridleway runs through the northern part of Rendlesham Forest, which is owned and managed by the Forestry Commission. It is a route for people on foot, horse or bicycle, but at the entrance to the forest cars are driving down and parking alongside the bridleway.

We are proposing modifications to improve safety for designated bridleway users, and would like to hear your thoughts.

The discussion will continue until **Sunday 31 August 2014**.

Please join in!
