

SAWMILL SURVEY – YEAR ENDING DECEMBER 2010

1. CONSUMPTION OF LOGS

- **What was the total consumption of UK and imported logs during 2010?**

This should be the volume of logs sawn in the year rather than the volume purchased or delivered. It should exclude sawn timber received for further processing.

Give figures in metric units (cubic metres underbark, m^3 ub).

Total volume consumed

Softwood

 m^3 ub

Hardwood

 m^3 ub

2. SOURCE OF LOGS

- **Approximately what % of softwood logs and what % of hardwood logs come from:**

	Softwood	Hardwood
England	%	%
Wales	%	%
Scotland	%	%
Northern Ireland	%	%
Other Countries	%	%
Total	100 %	100 %

3. PRODUCTION OF SAWNWOOD

- **What was the total volume of sawnwood produced by the mill during 2010, from both UK and imported timber?** (Give figures in cubic metres, m^3)

Total volume produced

Softwood

 m^3

Hardwood

 m^3

4. SAWNWOOD PRODUCT MARKETS

- **Please give the percentage of sawnwood production going to each of the following markets.**

Market classification:

	Softwood	Hardwood
a. Construction (including agricultural buildings)	%	%
b. Fencing and timber garden products (excluding round fencing)	%	%
c. Packaging and pallets	%	%
d. Furniture	%	%
e. Other	%	%
	100 %	100 %

5. OTHER PRODUCTS

- **What quantities of other products were produced during 2010?**

This should include all of these other products from the site, including those from secondary processing (additional resawing, cross-cutting and machining) and from processing of rough-sawn timber received at the site. *(Please give total quantities in green tonnes and breakdowns in percentages.)*

Softwood

	Wood chips	Bark	Sawdust & other
Total (green tonnes)			
% sold to woodbased panels or pulp & paper mills	%	%	%
% sold to bio-energy (including pellet manufacture)	%	%	%
% sold as firewood	%	%	%
% sold to others, including to agriculture or merchants	%	%	%
% used internally for heat/ energy (incl kiln use)	%	%	%
% disposed of as waste	%	%	%

Hardwood

	Wood chips	Bark	Sawdust & other
Total (green tonnes)			
% sold to woodbased panels or pulp & paper mills	%	%	%
% sold to bio-energy (including pellet manufacture)	%	%	%
% sold as firewood	%	%	%
% sold to others, including to agriculture or merchants	%	%	%
% used internally for heat/ energy (incl kiln use)	%	%	%
% disposed of as waste	%	%	%

6. EMPLOYMENT (at this site)

Please provide estimates of the sawmill's employment, expressed as Full Time Equivalents (FTEs) for each of the categories shown below. Each category should be split between direct employees (those for whom you are responsible for paying wages and National Insurance contributions) and other employment (any others undertaking work for you, including contractors and their employees).

To express employment as FTEs, please include a rough estimate of time for those who work a part-year for the sawmill. For example, count a full-time employee working slightly more than half the time for the sawmill as 0.6, or an employee who works part-time for 4 months as 0.2.

Please exclude any employment on harvesting, and any employment at the site not directly related to the sawmill (e.g. exclude work producing pallets or other wood products from sawnwood). Haulage employment should only include direct employees.

	Direct employees	Other employment
Line, production and maintenance staff		
Managerial, sales and administrative staff		
Haulage (direct employees only)		

7. CERTIFICATION

Does the mill have a Chain of Custody Certificate? (tick one)

YES

NO

If you have answered "Yes" to the above, please respond to the following questions. Otherwise, please leave blank.

What percentage of input volume is from Certified sources?

 %

What percentage of sawnwood output volume is available as Certified?

 %

Which certification label(s) do you use? (tick)

FSC

PEFC

If possible, please complete this questionnaire online at www.forestry.gov.uk/timbersurveys.

If you are submitting a paper return, please send it to us at the following address (no stamp required):
 Statistics Branch, Forestry Commission, FREEPOST, Edinburgh, EH12 0PD
