Reporting Form 5.2: Protective forests – infrastructure and managed natural resources

Pan-European indicator 5.2: Area of forest and other wooded land designated to protect infrastructure and managed natural resources against natural hazards, part of MCPFE Class “*Protective Functions*”.

Related SoEF definitions: Forest, Other wooded land, MCPFE Class 3.

Table 5.2: Protective forests – infrastructure and managed natural resources

Category	Year	Infrastructure and managed natural resources Subclass of MCPFE Class 3	Natura-2000 areas with protective functions outside MCPFE Class 3
		(1000 ha)	
Forest	2010	0	0
	2005	0	0
	2000	0	0
	1990	0	
Other wooded land	2010	0	0
	2005	0	0
	2000	0	0
	1990	0	
Total forest and other wooded land	2010	0	0
	2005	0	0
	2000	0	0
	1990	0	

Country comments:

Category	Comments related to data, definitions, etc.	Comments on trend(s)
Infrastructure and managed natural resources - Subclass of MCPFE Class 3	No areas are designated for these functions.	
Natura 2000 areas with protective functions outside MCPFE Class 3		

Reporting notes:

1. The intention of this indicator is to identify those forests where protection of infrastructure and managed natural resources is the primary management objective. “*Infrastructure*” includes roads, railways, settlements, buildings, etc. “*Natural resources*” includes e.g. agricultural land, vineyards, orchards. This class also includes protective forests with the primary management objective being the protection of humans (e.g. from noise or visibility protection).
2. MCPFE classes: see “*Terms and Definitions*”, and MCPFE Assessment Guidelines as well as the relevant Explanatory Note.
3. Using the data reported for the “*State of Europe’s Forests 2007*” (<http://www.unec.org/timber/tc-publ.htm>) as the basis, please determine status of protection of the areas reported in the different protection classes in your country for the years 1990, 2000 and 2005 as far as possible. Please document the process for further reference and use “*Country comments*” for reporting on major aspects. Please also indicate the reason for changing the figures, if new data will replace previously reported results.
4. Data for 2010 may require the use of extrapolation, if updated information is not available. Determining state for “*Reference year 2010*”: please assess status of each sub-class for the most recent year as far as possible.
5. Data sources: please specify sources separately for forest, other wooded land and total FOWL if sources differ.
6. For reporting of Natura 2000 areas by EU countries, pl., see the Explanatory Note.
