\*/ Average data for the indicated period should be reported in the corresponding Reporting Tables, i.e. not the data for the “*central year*” noted in the head of this Summary Table, e.g. average for 2003-2007 instead of 2005;

\*\*/ As data from SoEF 2007 are not “*pre-filled*” into this Enquiry, you might wish to cross-check your current reporting with the SoEF-2007 database

\*\*\*/ For 2010, please provide data or estimates for the most recent year available, and indicate the year and data status in “*Country comments*”

**Note** : For Indicators marked by „x“ for corresponding years the National Reporting is required, also checking, completing and/or up-dating if the data were pre-filled from FRA 2010
