Easter Tracking with sticks

Person 1

Make a trail using the stick signs below. Leave obstacles, messages and clues along the way to help the other person navigate to the hidden stick nest.

Person 2

Use the stick signs to guide your way through the trail. Keep a close eye out for hidden messages and try to find the stick nest that the other person has hidden in the forest.

Why not try hiding a **nest of eggs!**

This way
Make sure each arrow is easy to find.

No entry or danger
A cross tells people not to go in that direction.

Turn left or right
Make sure the bend in the arrow is clear to see.

Obstacle ahead
Place two sticks across an arrow to show that an obstacle lies ahead.

Message ahead
Mark out a square, then mark inside how many paces to walk to find the message. In this example, the four stones means that the message is four paces away.

Visit your local forest for a Stick Man adventure
