Realising the Promise of Bioenergy:

Commercial and Practical Issues

**Oxford,
United Kingdom**

18th - 20th September 2006

**An International Conference organised
by TV Energy in association with the
International Energy Agency Bioenergy
Programme, Tasks 29 and 30**

Realising the Promise of Bioenergy

Managing and using our local biomass resource to deliver substantial green Bioenergy is a continuing challenge for the UK. Recent reports and reviews including the Biomass Task Force and the Government response emphasise once again that Bioenergy is indeed a critical part of any sustainable future strategy for the UK. However to date, realising the promise of Bioenergy has completely eluded us. So, what is going on? Why have we failed where other countries have been so successful? What must we now do to claim the Bioenergy prize?

TV Energy in association with the International Energy Agency and strategic partners will examine best practice from across the world in growing, managing, using and commercialising wood fuel based Bioenergy systems. We will draw on leading experts from north America, Europe, Asia and New Zealand to explain what is happening elsewhere. We will also set out what is being achieved in the Thames Valley and the SE Region through partnership working with Slough Heat and Power and others to establish a sustainable wood fuel supply infrastructure able to support a plethora of local wood fuel schemes.

The main conference will run over two days, 18th -19th September culminating in a study tour on the 20th September.

Monday 18th September

MORNING	Key Note Speakers
AFTERNOON	Policy, Drivers and Commercial Issues
EVENING	Conference Dinner with speaker

Tuesday 19th September

MORNING	Fuel Production and Infrastructure
AFTERNOON	Utilisation of Biomass

Wednesday 20th September

ALL DAY	Study Tour
---------	------------

Power, the UK's only biomass fired, fluidised bed steam generation plant. The power station utilises in the region of 130,000 tonnes of wood fuel in the form of chips each year to generate electricity for the National Grid and heat for the trading estate in which the power station is located.

Study Tour

A full day study tour will take place on 20th September. Participants will visit Friars Court Farm in Oxfordshire to see the short rotation coppice grown on the farm for bioenergy. The second part of the day will be a guided tour of Slough Heat and

Accommodation

The conference has arranged accommodation in the both the Randolph Hotel and the University of Oxford's St. Edmunds Hall. The Randolph Hotel is situated in the heart of Oxford opposite the famous Ashmolean Museum. Built in 1864 and

recently refurbished the hotel offers each guest the highest level of comfort and service in a traditional and welcoming environment. Rooms are available at a rate of £130/night

To reserve a room please call **0870 400 8200** or book on line at **www.randolph-hotel.com**

St. Edmunds Hall is located in the heart of the city on the main high street, a short walk from the conference. The accommodation consists of single rooms with wash basins at a rate of £40/night. For more information visit **www.seh.ox.ac.uk**. Bookings can be made through TV Energy.

Registration Form

Book early as places will be allocated on a first come first served basis. Please ensure that payment reaches us by the payment deadline of 8th September 2006.

Please register me for:

Full Registration

- Day 1 and Day 2£380
- Day 1£195
- Day 2£195

Student Registration

- Day 1 and Day 2£280
- Day 1£150
- Day 2£150

The registration fee entitles participants to attend all conference sessions on the appropriate day/s including lunch. Registration fees do not include accommodation, additional meals, transportation, conference dinner or study tours.

- Study Tour£25
- Conference Dinner£20
- Exhibitors£300 (+ Registration Fee)
- Technical Paper or Poster

Accommodation in St Edmunds Hall

- Night of 17th September.....£40
- Night of 18th September.....£40
- Night of 19th September.....£40
- Night of 20th September.....£40
