

Joint FC/SDNPA Tree Health Conference

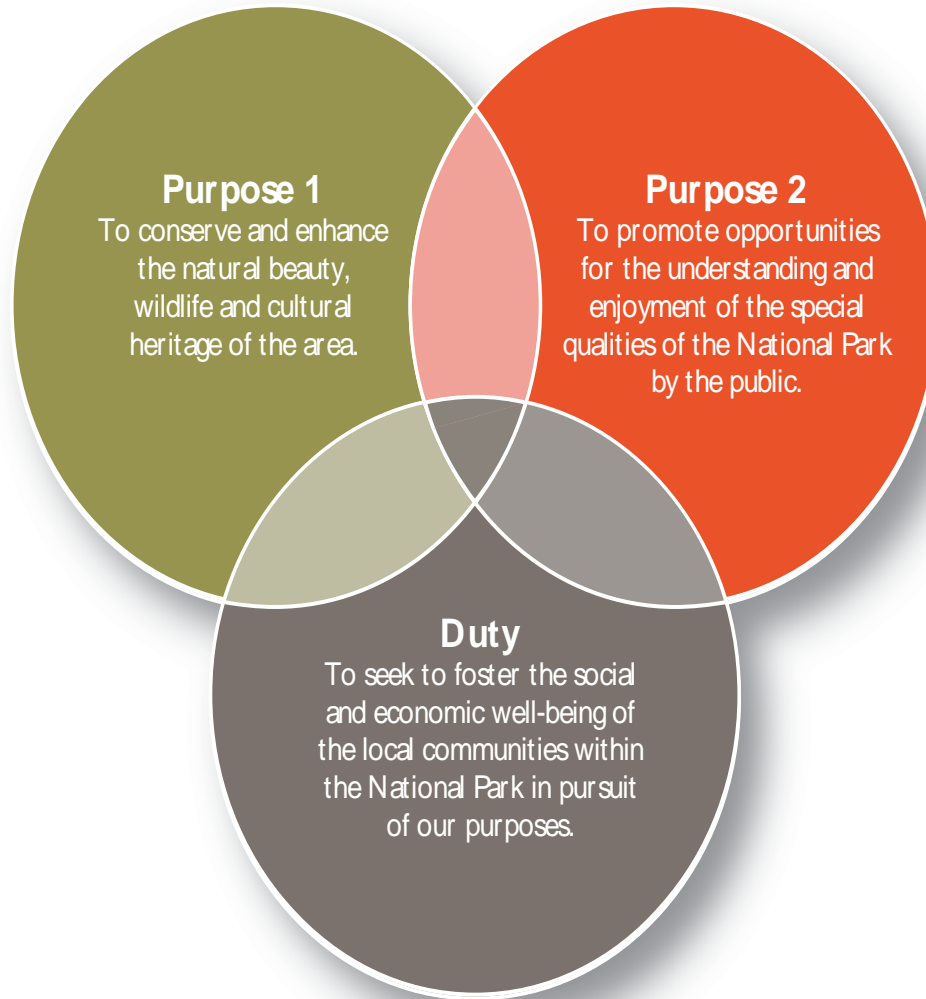

South Downs
National Park Authority

National Park purposes and duty

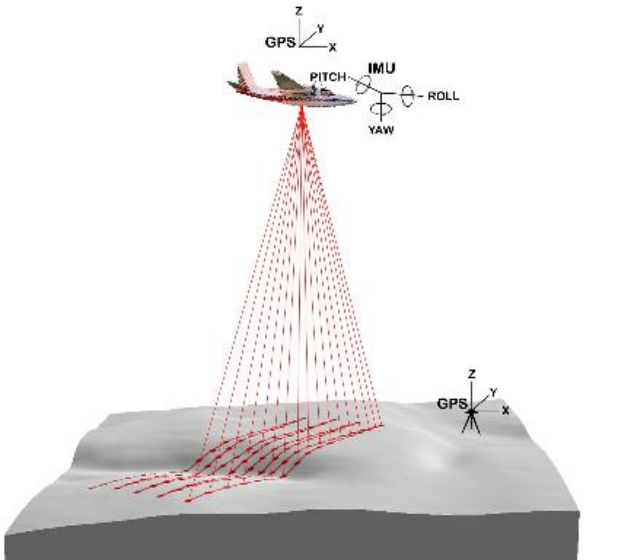

Vision, by 2050;

- the iconic English lowland landscapes and heritage will have been conserved and greatly enhanced;
- people will understand, value, and look after the vital natural services that the National Park provides;
- opportunities will exist for everyone to discover, enjoy, understand and value the National Park and its special qualities;
- its seven special qualities will underpin the economic and social well-being of the communities in and around it, which will be more self-sustaining and empowered to shape their own future;
- successful farming, forestry, tourism and other business activities within the National Park will actively contribute to, and derive economic benefit from, its unique identity and special qualities.

National Park Partnership Management Plan

Enjoyment, understanding, taking action

People

Sustainable
Economy

Landscapes
and places

Ecosystem services: eg food, timber, water, well-being

Enjoy the Conference!!
