

Responsible dog owners are welcome on the moors:

Please keep your dog close by, under control and in sight; however always use a short 2 metre lead:

- Between 1st March – 31st July when rare moorland birds lay their eggs on the ground (CRoW Act 2000)
- Near farm animals – all year round. Sheep are particularly sensitive to dogs (Animal Act 1971)
- If you cannot rely on your dog's obedience

If livestock chase you and your dog, it is safer to let your dog off the lead – don't risk getting hurt trying to protect it.

Please follow official signs that illustrate the sensitive times and places where dogs are not allowed.
