

Woodfuel on your doorstep?

If you're considering:

- *how you could use wood to heat your home;*
- *how wood could be used to heat your local school, village hall or church; or*
- *how wood could provide the heating in new developments*

**Join us at Queen Elizabeth Country Park
on Saturday 6th March to find out**

1. What buildings are most suitable for woodfuel
2. What are the costs of installing, maintaining and fuelling a woodfuelled heating system
3. What are the potential savings
4. Where woodfuel being used already

AGENDA

10:00 **Registration and coffee**
