

# THE PLANT CENTRE

Westonbirt The National Arboretum

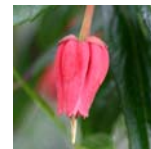

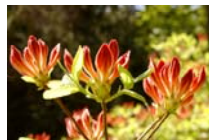

## NEWSLETTER May 2009

This Plantsman's paradise is to be found hidden within old stone walls, tucked away in the valley between the Old Arboretum and Silk Wood. We specialise in hardy plants and depending on the season, stock an extensive and interesting selection of Japanese Maples, unusual trees, shrubs and conifers, as well as climbing plants, herbaceous perennials, hardy ferns, grasses and shrub roses.

**We are open daily from 10am - 5pm and can be visited without entry to the Arboretum.  
We have our own large car parking area .**

### LOOKING PARTICULARLY GOOD THIS MONTH

- Lots of really interesting trees & shrubs including *Deutzia*, *Cornus*, *Crinodendron*, *Physocarpus*, *Berberis* & *Viburnum* species
- Dwarf species of spruce and pines & many unusual conifers
- Value for money perennials & herbs from only £2.00
- Azaleas & Rhododendrons
- Clematis & climbers
- and of course our amazing selection of Japanese maples

#### WESTONBIRT HERITAGE COLLECTION

We have fresh, well-grown stock of our 'Westonbirt Red', Orange & 'Spreading Star' acers, also available - the dwarf Westonbirt Pines, *Prunus maackii* (from Mitchell Drive) and *Lindera praetermissa*.

#### WILDLIFE PRODUCTS

We offer a selection of wildlife feeders & habitats for birds, bees, butterflies & bats, many in use in our wildlife garden.

We also stock a lovely selection of Natural History Museum greeting cards

#### DAVID AUSTIN ROSES

We offer a selection of climbers, ramblers and fragrant English shrub roses. We particularly concentrate on fragrance.

#### WESTONBIRT COPPICED BEAN POLES, PEA STICKS & CHARCOAL

#### Re-potting Japanese Maples?

Customers are reporting great results from using our Westonbirt compost, this has been developed in our propagation unit and manufactured exclusively for the Arboretum
