## Female special measure request form

### Measurement guidelines:

1. Measure snugly, but not too tight.
2. Ensure measuring tape is level all round body when measuring circumferences.
3. If possible, get a friend to take the measurements.
4. If measuring yourself, take the measurements in front of a mirror. This will help ensure the measuring tape is level.
5. For jackets and over trousers, measure over regular clothing.
6. If you have any questions or are unsure, please email or call us. Don't measure incorrectly!
