Forestry Commission Scotland

Middle board may be painted BS 14 E 53 ONLY where pictogramme is NOT used

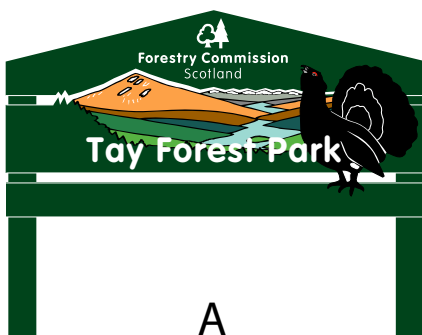

The illustrations above and below depict typical threshold signs which may be found marking major facilities such as Forest Parks, Cabin sites, Arboretums etc.

The signs should be used sparingly

ie. Major site - ENTRANCE only.

Forest Parks - at the extremities of the park, where main roads dissect the forest holding.

If only the headboard is being replaced to make the post FDR Forestry Commission 'Scotland' change, the preferred option is A, but if there is not sufficient space then option C may be used with the wording in a single line.

A

B

C
