

Forest Health Day – North Scotland

10th September 2009

Ballogie Village Hall, AB34 5DQ [Grid Ref: NO5895]

Organisers: Forest Research, Forestry Commission Scotland and Cairngorms National Park Authority

What is this event?

A single day seminar where Forest Research pathologists and entomologists update the sector on the latest information about pests and diseases affecting trees and woodlands.

- The session will include an overview of current threats and those that may be just over the horizon
- The basics of what to look for as indicators of when things may be going wrong as a result of pests or disease
- How to monitor these
- How to report them and to whom
- Any specific concerns raised.
- The day will be largely delivered by Forest Research pathologist and entomologist with local input as appropriate. Representatives from Cairngorms National Park and Forestry Commission, Plant Health will also attend.

Programme: 9:30 coffee and registration for a 10:00 start
Lunch will be provided
End by 16:00

There is no charge for this event
