### 3 Statement of Requirements

We intend to award a framework agreement for erection, maintenance and dismantling of Goalposts adjacent to OHPL on the Forestry Commission National Forest estate throughout Scotland.

A framework is an agreement with one or several providers. It sets out the general terms and conditions under which we can make specific purchases as and when we need them. The formal contract is formed when the customer places a call-off order against the framework asking for specific delivery of goods, services or works. A bidder can receive a call-off order directly, or we may ask them to take part in a mini-competition with the other bidders on the framework.

This particular Framework Agreement will operate as follows:

Work will be directly award to the bidder ranked in first place. If they do not accept the contract we will then offer it to second place and so on down the list.

For any contract which is deemed 'non standard' for any reason, the FC will run a mini competition between all contractors under the Lot. The FC reserve the right to run a mini competition at their sole discretion.

We intend inviting three (3) contractors per lot on to the Framework Agreement, although we reserve the right to take a more appropriate number where necessary.

### 3.1 Specifications of Task

The contractor will be expected to collect, transport, erect, maintain or dismantle goalposts and relevant warning notices (signage) throughout the National Forest Estate of Scotland. It would be expected that to erect or dismantle a goalpost/signage will be completed within a maximum of 5 working days from request. It would be expected that an emergency call out to maintain a goalpost will be within 24 hours of notification.

The presence of overhead powerlines constitutes a significant hazard where forest operations are planned. In addition powerlines outside the forest boundary may also adversely affect the safety of operations. There is a history of dangerous occurrences and near misses involving forest operations and powerlines. The majority of these comprise tree felling near to, and the passage of machines under, energised conductors. Therefore prior to operations commencing meetings are arranged by representatives of FES( or Standing Sales Customers) and the relevant DNO including other interested parties such as timber merchants and harvesting contractors. The purpose of these meetings is to clearly identify the hazard in terms of extent and voltage of the powerlines and to agree what control measures are necessary to significantly reduce the risk to all persons working on the site.

Where machinery is intended to pass under conductors the use of goalposts with signage alerts machine operators to their presence and ensures that cranes, loaders or booms are not raised to prevent contact or arcing occurring. As part of this contract it will be necessary for the successful contractor to erect goalposts along forest roads or within existing plantations where agreed crossing points need to be clearly marked.

Adequate maintenance throughout the period of operations must be done by the successful contractor as requested by call-out to ensure that all services are in place and fit for purpose.

On the occasion where the goalpost falls down of its own accord, it would be expected that the contractor re-erects without charge. If however, it falls down due to negligent working by a third party, the cost will be paid by the FC. These and costs may be recovered from the negligent parties.

The nature of the FC's business means that there will be numerous occasions where the contractor will be expected to erect and dismantle goalposts on sites where the Call off Contract/Forestry Works Manager (FWM) is not FES but is a Timber

Merchant/FC customer. The Framework Agreement is being procured so that the Timber Merchants/FC customers have the option to use this Framework Agreement and can engage with the Framework contractors directly. Framework contractors should therefore be aware that the Timber Merchant/FC customer will be able to call of Contracts using the Framework and will, in those circumstances, be solely responsible for managing the contract in line with the Framework terms and conditions and the FC will have no involvement in the contract delivery and will have no liability to the contractor in respect of the Contract.

Contractors may have to attend site meetings to agree crossing point locations and specifications. There will be numerous occasions where the Forestry Works Manager can communicate the outcome of these meeting with Distribution Network Operators and Contractor will not need to attend.

FES intends to engage competent contractors with relevant experience, expertise and training to provide quality and continuity of service throughout the estate. These contracts will provide on-call services to both forest districts and the relevant business units and Standing Sales Customers within the National Forest Estate. Administration of the contract will reside with FES where work is commissioned by FES.

**N.B. The Forestry Commission are not bound to use the contractor for every goalpost erection as in some cases the timber merchant or the NO may complete this task.**

The execution of this contract requires driving on forest roads , and therefore drivers / operators of equipment require to hold a full driving licence and to hold appropriate insurance

### **3.2 Materials**

The goalpost equipment specified by the Forestry Commission is UV stable bright yellow pipe (UG460 plain ended pipe 6mx110mm) which is supplied directly from our supplier Polypipe Building Products Ltd., Doncaster. The contractor would be expected to either store the goalpost materials themselves or where agreed, at a Forestry Commission location.

**The Goalpost uprights and cross bar constructed of UG 460 yellow pipes and elbow joint will be provided by the Forestry Commission to successful contractors and should not be costed within your bids.**

### **3.3 Outline Specification**

The goalpost uprights and any rigid cross bar to be constructed of UV stable yellow pipe (UG460) joined by elbow joints.

For single passageways less than 6m wide, a rigid crossbar is required. This should be clearly visible. In exceptional situations where a single passageway is not sufficient, or the distance between goalposts exceeds 6m, you may use tensioned

polypropylene ropes with high-visibility or red and white bunting attached to the tensioned ropes to improve visibility.

Goalposts should be positioned no closer than 10m from the nearest conductor. The Network Operator (NO) may advise a minimum distance greater than 10m, depending on the voltage of the overhead line. Where rope and bunting is used, at least 12m distance is required.

Goalposts should be parallel to the OHPL where possible and clearly visible.

On worksites, the entrance to the goalposts must be clearly marked with a barrier for 10m on either side of the goalpost. The NO may advise a greater distance. Clearly defined and marked passageways between goalposts to show the route that must be taken will be required

On exposed sites, supports for uprights to withstand high winds may be required using for example polypropylene guy ropes on each guy post connect to the yellow uprights

The Contractor will be responsible for ensuring that appropriate hazard warning signs are sited and maintained where identified at the pre-commencement meeting.

A. Yellow rigid plastic hazard warning signs reading 'DANGER ELECTRIC LINES' will be supplied by the relevant utilities engineer. These will be placed along forest roads on either side of the powerline at 20m distances (or other distances agreed with the DNO) from the outermost conductor. Signs will be supported on fencing stakes at the side of the forest road such that they are clearly visible to all road users. Signs must not be nailed to trees.

B. Corrugated plastic hazard warning signs reading 'DANGER HIGH VOLTAGE HEIGHT RESTRICTION M' will be supplied by the Contracts Manager. Where these are placed on the worksite the Contractor will clearly write the relevant height restriction on them in both metric and imperial units using a thick indelible black pen. These signs will be placed at the side of each set of goalposts, both in-wood and on forest roads. The signs may be nailed/stapled to goalposts on forest roads at head height but should not be positioned such that passing machinery is likely to strike them.

### **Health and Safety Expectations**

The contractor will be expected to adhere to the strictest of Health & Safety Requirements appropriate to the site they are working. All workers must be made aware of the onsite dangers and the appropriate precautions and actions to take.

The contractor(s) must have had appropriate training and undertaken refresher training where appropriate, in how to operate any equipment or machinery and how to carry out the tasks required. See FISA 805 – Training and certification.

The contractor(s) must proof they are aware of and have certificates (where applicable) for;

- FC SHE Guide – Management of Goalposts May 2014 Version 1
- HSE – GS6 - Avoiding danger from overhead power lines
- HS(R) 25 – Memorandum of guidance to the Electricity at Work Regulations 1989

- HSG85 – Electricity at work – safe working practices
- HSG47 – Avoiding danger from underground services
- FISA – 804 – Electricity at Work: Forestry
- G55/2 Issue 2 Sept 2008 – ENA - Engineering Recommendation – Safe tree working in proximity to overhead electric lines
- NSI 8 – National Grid UK – Guidance Notes – Mobile elevated work platforms, lorry loaders, vehicles, cranes and objects in substations
- HSE INDG143 (2<sup>nd</sup> rev) – Getting to grips with manual handling

Contractors will need to demonstrate that they have qualifications with regard to Electrical Awareness. Examples of such qualifications are the NPTC unit UA 1 Basic electrical Awareness or equivalent for ground workers

All sites where goalposts are required will be risk assessed individually in recognition of the need to consider the transport, erection and eventual dismantling of the goalposts.

It is the role of all parties to ensure responsibilities are discussed and agree the programme of work during the Pre-Commencement Meetings.

### 3.4 Invoicing

Invoices will be sent to the party who has made the call off under the Framework Agreement and entered into the call off contract. Framework Contractors will invoice that party directly. Where, for example, a Timber Merchant has awarded a contract under this Framework Agreement (as envisaged at 3.1 above), you must invoice them directly as the FC will not be involved in, or liable for, the payment or authorisation of this invoice under any circumstances.

### 3.5 Management Information

Contractors will be required to feedback information regarding the volume and value of contracts awarded to them under each Lot on the Framework on a quarterly basis to allow the FC to track the overall spend under the Framework Agreement

**Note: Tenderers must include details of any areas where they will not be able to comply with these requirements. If your Tender does not meet these requirements we reserve the right to reject it completely.**

## 4 Guidance notes for completing the ITT

### 4.1 Completing the ITT

Please answer every question. If the question does not apply to you please write N/A. If you do not know the answer please write N/K.

**Warning: Please note that if you answer N/A or N/K to any question, we may reject your submission in full and will not evaluate any further questions.**

### 4.2 Supporting documents

To make the process straightforward, you do not need to provide supporting documents such as accounts, certificates, statements or policies with your tender unless specifically requested to do so in sections A - J. However, we may ask you for these later. You may also be asked to clarify your answers or provide more details.

Your organisation will only be evaluated based on the information in your tender. Note that if you do not mention any previous experience of working with us in your reply we cannot take this into account. Please do not send any information that is general company or promotional literature, as this will not form part of our evaluation. Any additional documents you provide must refer to a question within the ITT and be easily identifiable as the answer.

### 4.3 Costs

All costs associated with participating in this process remain your responsibility. We will not return any part of your completed tender to you.

### 4.4 Right to cancel or vary the process

We reserve the right to cancel or withdraw from the selection and evaluation process at any stage.

### 4.5 Confidentiality

You must treat all information we supply to you in confidence and do not disclose it to third parties, unless you need to obtain sureties or quotations for submitting your response.

The Government has set out the need for greater transparency across its operations to enable the public to hold public bodies and politicians to account. This includes

commitments about public expenditure, intended to help achieve better value for money.

As part of the transparency agenda, the Government has made the following commitments for procurement and contracting, note procurement is devolved to Scottish Administrations, so some of these requirements are not UK-wide at this time.

- All new central government tender documents for contracts over £10,000 are to be published on a single website from September 2010, and this information will be made available to the public free (except for contracts concluded in Scotland exclusively).
- New items of central government spending over £25,000 to be published online from November 2010.
- All new central government contracts with a value greater than £10,000 are to be published in full on a single website from January 2011, and this information will be made available to the public free (except for contracts concluded in Scotland exclusively).

Bidders and those organisations looking to bid for public sector contracts should be aware that if they are awarded a new government contract, as a public sector organisation, we will publish that contract. In some circumstances, some information will be made unreadable before they are published so we comply with existing law and for protecting national security.

As part of the tendering process, when submitting your bids, you should identify which pieces of information you regard as being sensitive and would not want published. We will then assess this information (along with the rest of the contract) against the exemptions set out by the Freedom of Information Act when considering which contractual information should or should not be published.

## 4.6 Consortia arrangements

If you are bidding as a consortium, you must provide the following information:

- full details of the consortium; and
- the information sought in this ITT for each of the consortium's constituent members as part of a single complete response.

You should provide details of the actual or proposed percentage shareholding of the constituent members within the consortium in a separate Annex. If as a consortium you are not proposing to form a corporate entity, please provide full details of alternative proposed arrangements in the Annex. However, please note we reserve the right to require a successful consortium to form a single legal entity under Regulation 28 of the Public Contracts Regulations 2006.

We recognise that arrangements about consortia may (within limits) be subject to future change. You should therefore respond in the light of current arrangements. We remind you that you must tell us about any future proposed change to your consortia so we can make a further assessment by applying the selection criteria to the new information you provide.

## 4.7 Sub-contractors

Where you propose to use sub-contractors, please give all information we ask for about the prime contractor. Where sub-contractors will play a significant role in the delivery of the services or products under any ensuing contract, please indicate in a separate annex (by inserting the relevant company or organisation name) the composition of the supply chain, showing which member of the supply chain will be responsible for the elements of the requirement.

We recognise that arrangements about sub-contracting may change. However, you need to remember that where sub-contractors are to play a significant role, any changes to those sub-contracting arrangements may constitute a material change and therefore may affect your ability to proceed with the procurement process or to provide the goods and, or, services.

## 4.8 Tender validity

All details of the tender, including prices and rates, must be valid for 90 days from receipt of tender.

## 4.9 Language

The completed tender and all accompanying documents must be in English.

## 4.10 Applicable Law

Any framework agreement concluded as a result of this ITT will be governed by Scots law.

## 4.11 Pricing

All prices will be in sterling and exclusive of VAT.

## 4.12 Additional costs

Once we have awarded the framework agreement, we will not pay any additional costs incurred which are not reflected in your tender submission.

## 4.13 Disclaimer

While the information in this ITT and supporting documents has been prepared in good faith by us, it may not be comprehensive nor has it been independently verified.

Neither the FC, nor their advisors, nor their respective directors, officers, members, partners, employees, other staff or agents:

- makes any representation or warranty (express or implied) as to the accuracy, reasonableness or completeness of this ITT; or

## 5 Evaluation

### 5.1 Evaluation

We will evaluate responses to the tender objectively using the evaluation matrix at Section 5.5.

### 5.2 Gateways

Some questions in the tender are known as gateways and are fundamental requirements of the framework agreement.

If any of these questions are not answered appropriately, we may reject submissions in full and will not evaluate any further questions.

### 5.3 Specific questions

To make sure the relative importance of the questions is correctly reflected in the overall scores, we have applied a weighting system to each section of the tender.

The marks allocated for each question will be multiplied by the relevant weighting as shown for each section.

### 5.4 Award

Once we have carried out the evaluation and identified the successful tenderer(s), we will tell all tenderers in writing by email of our intention to award.

## 5.5 Evaluation matrix

Section	Title	Weight	Agreed Marking Criteria
A	Form A – Organisation and Contact Details	Mandatory  Question A19 – Pass/Fail	Completion of this Section is mandatory and is for our information purposes. We may confirm company identity and basic details with external bodies.  You must either be able to answer 'no' to the question posed, or if answering 'yes' have provided an explanation which is acceptable to the Forestry Commission. If you answer 'yes' to the question and do not provide an explanation, or if the explanation you provide is deemed unacceptable, you will fail this section.
A	Form B – Grounds for Mandatory Rejection	Pass/Fail	If you cannot answer 'no' to each of questions (a) to (f) and 'yes' to each of questions (g) to (j) in this section it is very unlikely that your application will be accepted and you should contact us for advice before completing this form.
A	Form C – Grounds for Discretionary Rejection	Pass/Fail	If you answer 'Yes' to any questions relating to discretionary rejection you may fail this section, however we will look for information from you that clearly indicates that any past conduct or problem has been resolved and that steps have been taken to prevent its recurrence. If we are satisfied that this is the case you will pass this section.
B	Financial	Pass/Fail	You must be able to provide at least one of the items of financial evidence set out in section B. The key objective is for us to analyse your financial position and determine the level of risk that it would present to us – having regard to the requirement and value, criticality, and the nature of the market.
C	Health and Safety	Pass/Fail	You must provide the information we have requested in Section C.
D	Insurance Details	Pass/Fail	You must have the required levels of insurance as requested in section D. If you do not have these, you must confirm that you will get them, if successful, before the framework agreement start date. If you

			cannot confirm this, you will fail this section.
E	<b><u>Specific Questions</u></b>	<b><u>Weight</u></b>	The following evaluation system will be applied:
	E1	20	<b>0 – No response or totally inadequate</b>
	E2	20	No response or an inadequate response.
	E3	10	<b>1 – Major Reservations/Constraints</b> The response simply states that the supplier can meet some of the requirements set out in the question or statement of requirements, but have not given information or detail on how they will do this.
			<b>2 – Some Reservations/Constraints</b> Bidder has provided some information about how they propose to meet most of the requirements as set out in the question or statement of requirements. There is some doubt in their ability to consistently meet the full range of requirements.
			<b>3 – Fully Compliant</b> Bidder has provided detailed information covering all elements of the question, detailing how they propose to meet all the requirements as set out in the question or statement of requirements. This gives full confidence in their ability to consistently meet the full range of our requirements.
			<b>4 – Exceeds Requirements</b> Bidder meets the required standard in all respects and exceeds some or all of the major requirements, which in turn leads to added value within the contract.
F	Pricing Schedule	<b><u>Weight</u></b> 50%	Price will be evaluated using the 'standard differential method' – each bidder receives 100% of the available marks less the percentage by which their tender is more expensive than the lowest; with 100% being the maximum score achievable.

## Framework Agreement-Open ITT

---

G	Terms and Conditions	Pass/Fail	You must accept our terms and conditions. We will discuss any issues you highlight before any award.
H	References	Pass/Fail	You must provide references relevant to the subject of this framework agreement. You should provide the number of references shown in Section H. We will consider accepting a lower number depending on how long you have been in business. When checking references, we will be looking to confirm that the framework agreement has been carried out on time, to budget and to specification.
I	Declaration	Pass/Fail	Signed declaration provided with no exceptions identified.
J	Certificate of Bona Fide Tender	Pass/Fail	Signed certificate provided with no exceptions identified.
