

Make your own Leaf Crown

Be a forest prince or princess!

Make it in the forest;
no extras needed!
Here's how...

1 Collect a variety of leaves with long-ish stalks

2 Remove the stalks from each leaf. You'll need the stalks to pin your leaves together.

3 Holding your leaves together, feed the stalk in and out of both leaves to pin them together.

5 Use the final leaf stalk to join the first and last leaves together.

4 Keep going, adding one leaf at a time until there are enough joined together to go around your head.

Wear your leaf crown on your walk in the woods!

Or if you want to make yours at home, try this...

- Cut a strip of card, long enough to go around your head.
- Put double-sided tape along one side and then staple or tape the card to the right size.
- Take your crown with you on your walk, decorate it by adding leaves to the sticky tape as you go.
