

Looking for leaves

Leaves come in all sorts of colours, shapes and sizes. Some have hidden scents, some make wonderful sounds and there are many different textures to explore.

Watch leaves dance as they fall to the floor.

Interesting textures

Can you find?

Find leaves that feel tickly or prickly, waxy or hairy, rough or smooth.

Leaf snake

Lay some leaves in a line on the floor to create a leaf-snake winding through the trees!

Can you find?

Tree smells

Find a Douglas fir, rub the leaves and smell the hidden citrus scent.

The leaves of Douglas fir trees are flat needles

Make a leaf pile, put your feet into it and rustle, or stomp to create leaf music!

Tree sounds

Stand really still and listen to the wind in the tree tops.
