¹ IEEAF is in principle annual, but in the past intermittent depending on Eurostat requests.

² Produced by FC Statistics on behalf of Forest Service (Northern Ireland).

³ First published 2002. Updated as new data become available.

⁴ First published June 2010, linked to State of Europe's Forests UK data (draft). Process for future updates to be decided.

⁵ First published in 2009. No provisional statistics published in 2010 or 2011 – final statistics included in Forestry Statistics. Future years subject to review.

Official Statistics produced by others in FC⁶

	Title	Frequency	Geography
IFOS ⁷	National Forest Inventory – woodland map statistics	Annual ⁸	GB/ England/ Scotland/ Wales
FC Wales	Woodland for Wales indicators	Annual	Wales
FC Scotland	Scottish Forestry Strategy indicators	Annual	Scotland
FC England	FC England Impact and Input Indicators ⁹	Quarterly	England
FC England	State of England’s Woodlands wider impact indicators	Annual ¹⁰	England
FC Scotland	Woodfuel Demand and Usage in Scotland	Annual	Scotland

⁶ It is likely that some other Forestry Commission outputs produced by others will be classified as official statistics, but have not been labelled as such so far. At present, no Official Statistics outputs are produced by the agencies Forest Research, Forest Enterprise England or Forest Enterprise Scotland.

⁷ Inventory, Forecasting and Operational Support, part of Forestry Commission. In addition to map-based statistics, IFOS will publish other National Forest Inventory statistics starting in 2012, expected to be official statistics.

⁸ Expected to be annual from 2011.

⁹ Previously “Forestry Commission England CSR07 Performance Indicators”.

¹⁰ From 2012.
