

PRACTICAL WORKSHOP - CONTROL OF INVASIVE *RHODODENDRON PONTICUM*

A one-day workshop organised and run by Colin Edwards [[Forest Research](#)] and Rob Dewar [[National Trust for Scotland](#)], aimed at providing practical solutions to the eradication of the invasive weed species *Rhododendron ponticum*.

Location: [National Trust for Scotland Visitor Centre Glencoe](#) ([map](#))

Date: Wednesday 25th October, 2006; 0900 for 0930 start.

The indoor morning session will consist of several presentations covering a range of practical control issues and experiences from large scale operations. After lunch a series of demonstrations of correct application technique will precede a walk round an area of invaded woodland with a range of bush types and sizes. Discussion will cover operational considerations and planning an eradication programme, plus consideration of restoration following successful clearance operations.

Seating is limited so attendance will be on a first-come-first-served basis. Please contact evelyn.hall@forestry.gsi.gov.uk to reserve a place.

Please ensure you bring suitable waterproof clothing and sturdy boots, lunch will be provided.
