

Insect collection sheet – what did you find?

Look for insects flying, crawling or hopping, on leaves, on the ground or on flowers.

Different insects like different sorts of places – some like the sun and some prefer the shade, some live by water and others live under the trees.

Record what you find by ticking the list below when you see an insect – try to draw some of them as well.

Insect to look for	Where to look	Tick when you find one	Draw a picture
Ladybird	On plants		
Beetle	In leaf litter and on dead wood		
Butterfly	In sunny places and on flowers		
Bee	In sunny places and on flowers		
Dragonfly	Near a pond or stream		

Insect to look for	Where to look	Tick when you find one	Draw a picture
Ant	In leaf litter or walking on the ground or path		
Wasp	Flying anywhere		
Moth	Flying anywhere or on leaves		
Earwig	In leaf litter or on leaves		
Fly	Flying anywhere or on leaves
