

Woodland Carbon Code Statistics

Data to September 2015

Release date: 15 October 2015

Coverage: United Kingdom

Geographical breakdown: Country

Issued by: Economics & Statistics, Forestry Commission,
231 Corstorphine Road, Edinburgh, EH12 7AT

Enquiries: Jackie Watson 0300 067 5238
statistics@forestry.gsi.gov.uk

Statistician: Jeremy Darot 0300 067 5061

Website: www.forestry.gov.uk/statistics

Introduction

The Woodland Carbon Code is a voluntary standard, initiated in July 2011, for woodland creation projects that make claims about the carbon they sequester (take out of the atmosphere).

All projects must be placed on the Register of UK Woodland Carbon Projects. Their claims about potential carbon sequestration are validated by an independent certification body. Validated projects are then verified on a regular basis to confirm the progress of carbon sequestration.

Woodland Carbon Code Statistics are released on a quarterly basis. Figures to September 2015 are published for the first time in this release. Figures for earlier periods have not been revised from those previously published. For further details, see the Revisions section of the Annex.

Please refer to the Annex for a glossary of terms used in this release.

Key findings

The main findings are:

- A total of 208 projects were registered under the Woodland Carbon Code at 30 September 2015, covering an area of 15.6 thousand hectares of woodland and projected to sequester 5.8 million tonnes of carbon dioxide.
- Of these projects, 102 projects had been validated by end September 2015, covering an area of 3.4 thousand hectares and projected to sequester 1.6 million tonnes of carbon dioxide.
- Validated projects were predicted to sequester 498 thousand tonnes of carbon dioxide in England, 1,102 thousand tonnes in Scotland, 33 thousand tonnes in Wales and 3 thousand tonnes in Northern Ireland.

Woodland Carbon Code

Table 1 provides information on the number of projects, area of woodland covered by the projects and the total projected carbon sequestration over the lifetime (up to 100 years) of the projects, at 30 September 2015.

A total of 208 projects were registered under the Woodland Carbon Code at 30 September 2015, covering an area of 15.6 thousand hectares of woodland and projected to sequester 5.8 million tonnes of carbon dioxide. Most of the registered projects were in England (113) and Scotland (87), seven were in Wales and one in Northern Ireland.

One hundred and two projects had been validated by end September 2015, covering an area of 3.4 thousand hectares and projected to sequester 1.6 million tonnes of carbon dioxide, a 3% increase on the previous quarter (Figure 1). This represents a 7% increase in projected carbon sequestration in the year since September 2014.

Table 1: Woodland Carbon Code projects at 30 September 2015

| | England | Scotland | Wales | Northern Ireland | UK |
|--|---------|----------|-------|------------------|--------|
| Number of projects | | | | | |
| Validated | 44 | 54 | 3 | 1 | 102 |
| Awaiting validation | 69 | 33 | 4 | 0 | 106 |
| Total | 113 | 87 | 7 | 1 | 208 |
| Area of woodland (hectares) | | | | | |
| Validated | 895 | 2,465 | 52 | 9 | 3,421 |
| Awaiting validation | 1,152 | 10,864 | 179 | 0 | 12,196 |
| Total | 2,048 | 13,329 | 231 | 9 | 15,617 |
| Projected carbon sequestration¹ (thousand tonnes of carbon dioxide equivalent) | | | | | |
| Validated | 498 | 1,102 | 33 | 3 | 1,635 |
| Awaiting validation | 762 | 3,305 | 84 | 0 | 4,151 |
| Total | 1,260 | 4,407 | 116 | 3 | 5,786 |

Notes:

- 1 Figures for carbon sequestration indicate the total projected sequestration of the projects over their lifetime of up to 100 years, and include the amount claimable by a project plus the amount allocated to a shared "buffer" in case of unanticipated losses.

Notes:

- Figures for carbon sequestration indicate the total projected sequestration of the projects over their lifetime of up to 100 years, and include the amount claimable by a project plus the amount allocated to a shared "buffer" in case of unanticipated losses.

Annex

Introduction

This annex provides background information on the Woodland Carbon Code statistics presented in this release. It covers the data sources and methodology used to produce the statistics, information on quality measures and on any revisions to historic data and links to further information.

Glossary

Forest In the United Kingdom, there is no formal definition of "forest"; the term is often used for large woodland areas (especially conifers) or for old Royal hunting preserves such as the New Forest or the Forest of Dean.

Forestry Commission (FC) The government department responsible for forestry matters in England, Scotland and (until March 2013) Wales. The Forestry Commission's functions in Wales transferred to a new organisation, Natural Resources Wales, on 1 April 2013. The responsibility for forestry is devolved.

Great Britain (GB) England, Wales and Scotland.

Hectare (ha) Unit of area defined as 10,000 square metres (100 m by 100 m), approximately equivalent to 2.47 acres.

Tonne of carbon dioxide equivalent (tCO₂e) Emissions and sequestration can be presented as tonnes carbon or tonnes carbon dioxide (CO₂) equivalent. To convert from tonnes CO₂ to tonnes carbon multiply by 12/44.

United Kingdom (UK) Great Britain and Northern Ireland.

Woodland Land under stands of trees with a canopy cover of at least 20% (25% in Northern Ireland), or having the potential to achieve this, including integral open space, and including felled areas that are awaiting restocking.

Data Sources and Methodology

Data sources

Information about Woodland Carbon Code projects comes from the UK Woodland Carbon Registry, housed on the Markit Environmental Registry (www.markit.com/product/registry). The register is a live database and summary data are extracted on a quarterly basis.

Further information on administrative sources can be found at:
www.forestry.gov.uk/forestry/infd-832ey5

Quality

Detailed information on the quality of the statistics presented in this publication is available in the *Quality Report: Woodland Carbon Code Statistics* at:
[www.forestry.gov.uk/pdf/wccqrpt.pdf/\\$FILE/wccqrpt.pdf](http://www.forestry.gov.uk/pdf/wccqrpt.pdf/$FILE/wccqrpt.pdf)

Further quality information on FC Official Statistics is available at:
www.forestry.gov.uk/forestry/infd-7zhk85

Revisions

Figures at September 2015 are published for the first time in this release.

Figures for earlier periods have not been revised from those previously published in *Woodland Carbon Code Statistics: data to June 2015*.

The Forestry Commission's revisions policy sets out how revisions and errors to these statistics are dealt with, and can be found at:
[www.forestry.gov.uk/pdf/FCrevisions.pdf/\\$FILE/FCrevisions.pdf](http://www.forestry.gov.uk/pdf/FCrevisions.pdf/$FILE/FCrevisions.pdf).

Further information

Supplementary data is available in the accompanying spreadsheet at:

[www.forestry.gov.uk/pdf/wccsep2015.xls/\\$FILE/wccsep2015.xls](http://www.forestry.gov.uk/pdf/wccsep2015.xls/$FILE/wccsep2015.xls).

Further information on the Woodland Carbon Code is available at:

www.forestry.gov.uk/carboncode.

More statistics on UK forests and climate change can be found in *Forestry Statistics 2015*:

www.forestry.gov.uk/website/forstats2015.nsf/LUContentsTop?openview&RestrictToCategory=1.

Release schedule

Woodland Carbon Code statistics are published quarterly, in the month after which each quarter ends.

The next editions will be released on the following dates:

Woodland Carbon Code Statistics: data to December 2015 will be published on 14 January 2016.

Woodland Carbon Code Statistics: data to March 2016 will be published on 14 April 2016.

Woodland Carbon Code Statistics: data to June 2016 will be published on 12 July 2016.

Woodland Carbon Code Statistics: data to September 2016 will be published on 13 October 2016.

Summary results for the period to end June are also published in September in *Forestry Statistics*, available from the Forestry Commission website.

Official Statistics

This is an Official Statistics publication. For more information about Official Statistics and the UK Statistics Authority visit www.statisticsauthority.gov.uk.
