

Mouse Mask

Now you've met Matilda, why not make your own mouse mask at home.

You will need:

Card (such as a cereal packet)

Scissors

Glue

Thread

Natural objects from your woodland walk or colouring pencils.

1. Cut out the mouse mask on the back of this sheet.
2. Paste it onto the card and cut out.
3. Carefully cut out the eyes, ask an adult to help.
4. Decorate the mask with natural objects from your woodland walk or colour it in.
5. Make a small hole in each side of the mask and then thread wool or elastic through each side to keep it on.

Have fun!
